THE SOURCE FOR NEWS AND STRATEGIES STRAIGHT FROM THE PROS
We're including something new this month: a review of an all-time classic space game, Metroid. Ever since they first battled the insidious Mother Brain, players have been clamoring for a sequel. Next month, they'll get it! We could think of no better way to introduce it than to retell the original story and present complete maps and collector's tips. Finally, Samus Aran returns!

Also this month, we're issuing an official Trekkie alert. The spaceship Enterprise beams the entire Star Trek crew down to the NES for a stellar video adventure. The commanding Kirk, unflappable Spock and others from the original Trek team take on a new challenge and, in the process, meet some new beings and some old adversaries. One of the game's great features is that your characters can beam back up to the Enterprise to be rejuvenated when they run low on energy.

And speaking of treks, wait until you see this month's Player's Poll Contest. The lucky winner can start planning now for a family vacation! One lucky Paper Boy 2 fan will have the chance to become a power biker and take the whole family on a mountain bike adventure. Then the winner will return home with the bikes, which will get the papers right to subscriber's porches. Check out all of the details on pages 82-83, then be sure to send in your entry. You never know—you might be trekking yourself next spring!

For the Super NES, this month's feature, F-Zero, is a fantastic, futuristic space race that pits humans against aliens. Not just your regular space simulator game, F-Zero has three skill levels and 15 tracks with varied and vivid background scenes. Control of the super jet pods is precise and enhanced racing sound adds to the excitement. Rounding out the Super NES Showcase are the long-awaited Super R-Type and a great new golf game, Hal's Hole-In-One.

For Game Boy, the Belmonts are back in a new adventure, Castlevania II—Belmont's Revenge. Bad boy Bart is back too—back from camp! In Bart Simpson's Escape From Camp Deadly, he and Lisa discover that Camp Deadly isn't all that the brochures promised. Their counselor is hard-core, the fun and games aren't, and the food stinks. It's Dullsville, man. Breaking all the rules is par for the course as Bart adds some excitement to Camp Deadly's schedule.

ACCUSED CLAIMS SHE'S INNOCENT

I caught my mom "in the act" one day after school. When I opened the front door, she hurriedly turned off the power of the NES and took out the Wheel of Fortune Game Pak. I asked her what she was doing and she replied, "Oh, I'm just cleaning." That was a little hard to believe, knowing that Wheel of Fortune is her favorite game show, but she didn't admit anything. I think that she should be added to the ten most wanted list for parent players. Her name is Janet Spriggs.

MOM TAKES OVER TETRIS

I received a Game Boy for my fourteenth birthday. I was very pleased with it, but less than a week later I lost it. I didn't misplace it or drop it down the garbage disposal—the fate I suffered was much worse. I was playing Tetris and I had just finished Level 9-1 when my mother sat down and started watching me. A few minutes later she asked to play. She's been at it ever since. Even as I write, she plays. I don't think I can stop her. Help!

NINTENDO MOM "GONE CRAZY"

My mom, Janice Neil, is a Nintendo Mother gone crazy! She has finished eighteen games. Among them are Zelda I and II, Dragon Warrior I and II, Final Fantasy, Hydlide, Ultima, StarTropics, Willow, Strider, Maniac Mansion, Legacy of the Wizard, Clash at Demon Head, Faxanadu, the Magic of Scheherazade, Crystalis, and Shadowgate! She is almost done with Castlevania III: Dracula's Curse. When she's not busy playing games, she's a good nurse, a Girl Scout leader, and an all-around great Mom.

APB: MISSING MOM

We're writing to tell you that our house is filled with Nintendo manics, especially now that our Mom has started playing! She has saved the princess in Super Mario Bros. and is now playing Dr. Mario. She's pretty good and can get to level 23, but we have to compete with her for our turn to play. Sometimes when Dad comes home from work he asks where Mom is. She's playing Dr. Mario, of course, and saying, "Just one more try and I'll stop!" My brother and I were really happy when we finally saved enough money to buy a Game Boy. Then one night, my Mom picked it up and started playing Tetris. Now, if she goes to one of our baseball games, she takes Game Boy to play! She's up to level 10 on Tetris and keeps trying and trying. The only one not hooked on Nintendo yet is our Dad, but we're working on him, too!

DAD BECOMES VIDEO MONSTER

When we bought The Legend of Zelda in 1988, we didn’t realize we were unleashing a monster. My Dad became addicted, playing at night on weekdays. He just couldn’t stop! Some weeknights he would stay up until 4 or 5 o’clock in the morning trying to defeat Ganon. He would sleep for two hours, then get up and go to work at 7 o’clock. Finally, four months later, Dad finally beat Ganon in a showdown at Death Mountain. Life settled down for awhile, but then, last year, we got The Adventure of Link… Mistake! Normality was just a dream.

CRIMINAL NEGLIGENCE

My Dad doesn’t really play with our NES very much, but he has an unbelievable addiction to Game Boy Tetris! He has become very good at it, and if I want to play, I often have to wait for 20 minutes or more before I get a turn. Sometimes Mom hides the Game Boy so he’ll pay more attention to her.

FANTASTIC FEATS BY POWER PLAYING FEET

My name is Jason Schatz and I am 13 years old. Last year in February I purchased my NES with my own money. It was one of the best things I ever did! To date I have beaten 31 games, including all three Super Mario Bros. games, all three Mega Man games, Double Dragon 1 and 2, both Zeldas, Dragon Warrior, Final Fantasy, and many others. Last June I had an accident which severed my thumb muscle. I couldn’t use it all summer, but that didn’t stop me from playing! Using the Advantage, and a wacky idea, I learned to play with my left hand on the joystick and my feet on the buttons. Not only did it work, but I beat Super Mario Bros. 3 with my feet! Now that my thumb has healed, beating games with my feet is just for show.

MORE FANTASTIC FEET!

Recently my 15-year-old, Scott, was involved in a bad accident in which he suffered severe injury to both of his hands. During his stay at the hospital, he became terribly bored just sitting and watching TV. One day he had his feet sticking out of the hospital bed and he said, “I bet I could play my NES with my toes if they would bring it in here.” The nurse came back and rolled a portable Nintendo system into his room. Scott immediately began playing it with his toes. We were all amazed! He was released from the hospital but still wore bandages at home. When Scott’s friends came to visit he challenged them to a game of “Ninten-Toe”. He beat them all!

**FLY INTO THE FUTURE**

High above the cities and wastelands of 26th Century Earth hover the fastest, most dangerous machines known to man or mutant. Their pilots are steely-nerved competitors, driven to be at the top of the heap. F-Zero takes you to the aerial arenas of these futuristic fighters with smooth action and amazing special effects.

**RACE FOR THE RECORD**

**GRAND PRIX**

The three leagues of the Grand Prix Circuit each feature five treacherous tracks. If you finish in the top three, you’ll move on to the next track. Advanced tracks provide advanced challenges.

**PRACTICE**

In the Practice Mode, you can test seven of the most challenging tracks on the circuit and register your best times into the record books.

F-Zero Circuit racers compete on tracks that hover over the 26th Century landscape. High tech obstacles and sharp corners are designed to slow down speeding vehicles.
**KNIGHT LEAGUE**

This beginning league features relatively obstacle-free courses.

**QUEEN LEAGUE**

The tracks get narrow, crowded and dangerous in this advanced league.

**KING LEAGUE**

On the most treacherous tracks of this dangerous league, any mistake is lethal.

**ONE FOR THE BOOKS!**

Since the F-Zero Game Pak has a battery back-up, it records the ten best times for each of the 15 tracks so that you can race for a place in F-Zero history.

Put your best time in the books.
JUMP INTO THE DRIVER'S SEAT

F-Zero uses every button on the Super NES Controller to effectively put you in control of your own racing machine. The Control Pad is used for steering. The B, A, X and Y Buttons are used for controlling speed. And the L and R Buttons can make your machine lean into corners.

ACCELERATE
Keep your thumb on the B Button to blast off with maximum speed.

BRAKE

SUPER JET
Whenever you complete a lap, you’ll earn a Super Jet turbo blast for a four-second boost of super speed.

The Super Jet is the most effective in long straight-aways.

Blast through rough terrains in a hurry with a turbo boost.

DROP OUT
Press the Start Button to pause the action and you’ll have the option to stop racing.

If the race isn’t going your way, you may want to sit it out.

LEAN AND DIG
While you’re taking sharp corners, you may slide wide. Press the L or R Button to lean left or right and you’ll avoid sliding by digging into the corner.

With a good lean, your machine will corner like it’s on rails.

Move close to the edge on the inside and keep moving.

PIT ZONE POWER-UP
When you hit obstacles, rails and other machines, you’ll lose precious energy. If you lose all of your energy, your machine will be headed for the scarp heap. Make sure that you duck into the Pit Zone when you need a quick energy refill.

You’ll come across one Pit Zone on every track. If your machine is low on energy, slow down and let it power-up.

MOVE YOUR MACHINE
You can steer by pressing Left and Right on the Control Pad. By pressing Up and Down after you launch from a Jump Plate, you can cut short or sustain the flight.

Steer around corners by pressing Left and Right.

Press Up and Down while in the air to control your flight.
**CHOOSE YOUR MACHINE**

The pilots and their machines vary in strengths and abilities. Choose one that fits your own driving style.

**BLUE FALCON**

While the Blue Falcon doesn’t stand out in any category, it’s a good all around machine.

**SAMURAI GOROH**

Rumor has it that this master thief built the Fire Stingray from stolen parts.
LET THE RACE BEGIN!
The tracks of the F-Zero Circuit range from all-out straightaway sprints to sharp-cornered obstacle courses. Study them before you race and take note of winning techniques.

MUTE CITY I
This first course in the circuit features a few simple obstacles and a super straightaway on the home stretch.

SLOW DOWN
Hit the Rough on the inside to slow down for this super sharp turn.

ROUGH CURVE
Stay inside when you take this turn to avoid the machine-slowng Rough.

SUPER JET
With a turbo blast of the Super Jet, you can make a bee-line through the Rough.

BIG BLUE
This race over the water features a stunning view. Keep your eyes on the road though, and watch for ice!

DON'T SLIDE!
If you turn too sharply on the ice, you'll lose control. Slow down, then hit the Super Jet on the way out.

STAY INSIDE
If you're following the outside rail here, you'll waste a lot of time. Cut in and keep racing.

Follow the inside rail and keep racing.
**SAND OCEAN**
Many of the curves on this seaside course are sharp and narrow. Try to pass on the straights.

**SHARP TURN**
This sharpest, narrowest curve in the Knight League is very tough in a crowd.

**SILENCE**
The angular curves of the last Knight League course can be very tough. Take 'em easy.

**SUPER JET**
Hit the turbo after the last curve and speed toward the finish line.

**DEATH WIND**
Wind whips through this oval with a fury. Steer against the gale and aim for the center of the track.

**DASH ZONE BOOST**
Hit the Dash Zone for a quick burst that will send your machine soaring at 900 Km/h.

**SUPER JET**
The Super Jet counteracts the machine-slowing Rough. Hit it on this Rough-lined straightaway.

**WATCH THE CURVES**
Stay centered, speed through the first curves, then take the others slow.

**EARLY ELIMINATION**
The field of racing machines narrows after each of the five laps in a Grand Prix race. Make sure that your rank qualifies you to move on.

**VOLUME 79**

---

**MINE FIELD**
The short route here is littered with Land Mines. Aim for the center to avoid them.
**MUTE CITY II**

This second take on the Mute City track has the same basic layout as the first but has more obstacles.

**STAY ON TRACK**

It's easy to twist in the air and end up over the edge when launching from Jump Plates. Aim for a safe landing on a straight section of track.

**ROUND THE LOOP**

The distance is the same whether you race around the left or right edge of the loop. Choose the least crowded route and try not to slide into the sides.

**DOUBLE JUMP**

There are two Jump Plates in this series of curves. Hit them one after the other or barrel through with a Super Jet boost.

**PORT TOWN I**

The narrow curves and early jumps make this course a difficult one to come from behind. Keep up with the pack.

**WORK TOWARD THE RAILS**

If you stay near the inside rail, in most cases, you'll end up covering the least amount of track and earn a better time.

**JUMP! JUMP!**

Veer to the right from the start to hit the over-the-Rough Jump Plate, then blast off over the gap.

**PULL AWAY**

Magnets pull your machine toward the edges in this stretch. Press the L and R Buttons to lean in the opposite direction.
RED CANYON I
The race over the red rocks is very fast and straightforward if you're familiar with the course layout.

TRIPLE JUMP
You can leap off the Jump Plates here to keep a straight and steady course. Blast off and fly over the edge!

STAY CENTERED
Shoot down the center of this passage and you'll avoid the zig-zagging sides.

SLOW OR SLIDE
If you don't cut your speed on these icy turns, you'll hit the rail. Look out!

WHITE LAND I
This wintry course is picturesque but packed with slippery traps. Beware!

WHITE LAND II
The second slippery course features one tough turn after another. Watch it!

INSIDE TURNS
Cut into the rail to avoid sliding here.

UPS AND DOWNS
The Jump Plates in this area are accompanied by Magnets that will pull you down. Press Down for a longer jump.

BOOST FROM BEHIND
Use the L and R Buttons to position your machine directly in front of a competitor. When the other machine hits yours, you'll surge forward.

SUPER JET
The longest gap in the league requires super speed to cross. Blast off!

When you're hit from behind, you'll get a quick surge of speed.
**Land Mines and the Rough** make this a difficult area to negotiate. Hit the Super Jet and you'll get through in a hurry.

**Death Wind II**
The windiest of cities now features some super sharp curves. Drive carefully.

**Easy Dash**
This Dash Zone is in the free and clear. Hit it!

**Super Jet**
Blast off on this straight and you won't notice the Rough.

**Jagged Edge**
Center your machine and speed between the angular rails.

**Work for a 1-Up**
You'll earn points after you complete laps and races near the top of the ranking order. Earn 10,000 points and you'll net a 1-Up.

**Lap Bonus**
- 1st Place: 900 Pts.
- 2nd Place: 600 Pts.
- 3rd Place: 400 Pts.
- 4th Place: 200 Pts.

**Race Bonus**
- 1st Place: 2500 Pts.
- 2nd Place: 1500 Pts.
- 3rd Place: 1000 Pts.

By earning points and collecting 1-Ups, you can accumulate as many as five machines in reserve.

**Sonic Start**
When you're piloting the Fire Stingray, which always starts in the lead-off position, you can get a quick jump over your competition by veering toward the other machines and letting them bump into your machine from behind.
PORT TOWN II
The updated Port Town Course features the same dual jump arrangement as the original. Watch out!

LEAN AND PULL
Magnets alternately pull left and right in this curved passage. Press the L and R Buttons to lean in the opposite direction so that you won’t hit the rails.

SUPER JET
Hit the Super Jet as soon as you pull out of the last set of curves and speed toward the goal.

JUMP OVER CURVES
Use the Jump Plates to fly straight over the angular curves.

SUPER JET
Center your machine and ignite the Super Jet to zip through this corridor.

RED CANYON II
Play the part of daredevil in this second Canyon and go for a really big leap!

DOUBLE DANGER
You’ll encounter a hard curve to the right just after you’ve navigated a series of Mines. Watch out!

FIRE FIELD
This curve-filled course is the most challenging by far. Study every corner and cut down on your time wherever possible.

STAY OFF-CENTER
The Magnet in the middle pulls you toward the barrier. Lean away.

CUT OR PIT
Veer right and you’ll cut straight to the goal. Veer left and you hit a Pit Zone and Dash Zone.
I'm going for the world record in this contest, 52 pounds of candy in an hour. Good luck, suckers!

I don't know if my bag's big enough.

Oh, yeah, Mike. You don't stand a chance unless you get to count your fat head.

Isn't it weird how everyone's dressed up like Star Wars characters?

Nah, last year everyone dressed up as Madonna. That was really scary.

W-SHHH! Luke Skywalker?

Good guess, Sherlock. Trick or treat?

Let's go, Nester.

W-SHHH! The only thing I'm opening is my bag. You know, you should do something about that asthma.

We only have a half hour left, and we don't have any candy.

Hey, where can you get the most stuff around here?

Han Solo's place!

Great earmuffs, Princess! Say, does Han Solo live here?

Either him or Mr. Goodbar. Hope you have a huge sack.
If we wait in line, there won't be anything left by the time we get there and Mike will beat us for sure!

I don't think this is going to work, Nester.

I'm going to set the world's record if it's the last thing I do.

Hey, that's cheating! Only food counts.

What I need is a diversion to get inside. I think I can jump over those guys if I get some height and running room. Can you do it, Stu?

I'll take that as a yes.

End of the line, Luke Skywalker. Get used to it.

You have not seen the end of me!

Help! I'm stuck in this tin can and I can't get out!

Sorry, kid. We're giving away dental floss to the trick or treaters. You want waxed or unwaxed?

Which weighs more?

75 pounds! The biggest can of Stu in the world!

Which weighs more?

Stage Select
Skip to an advanced stage of this futuristic thriller with an easy-to-enter Stage Select code. Make sure that both Controllers are plugged in, then press and hold the A Button on Controller I and press the Reset Button on the Control Deck. The game will reset and the American Sammy logo will appear on the screen. Next, press either the A Button or the B Button on Controller II. If you pressed the A Button, the message “Stage Select 21A” will appear and you’ll be able to begin in any section of any stage of the game. If you press the B Button, the numbers “00” will appear and you’ll be able to select any stage and start at the beginning. Press Up and Down on the Control Pad of Controller I to change the numbers on the screen, then press the Start Button to begin on the selected stage.

From Agent #369

Character Change
Our agents have come across a curious code for this space adventure. While it won’t power-up your ship or send you to advanced stages, it will change your outlook on the game. At any point in the game, press and hold the A and B Buttons and press Reset on the Control Deck. You’ll notice right away that things have changed on the title screen, as the Option symbol that points to the assorted choices on the screen will be in the shape of a galloping horse. When you start the game, you’ll see that other characters have changed as well. The Ship, for example, changes from its normal shape to an indescribable jumble, Power-Up symbols become Chinese characters and the stage titles change from block letters to italics. Play the game in this different state and take a look at what else has changed.

Press and hold A on Controller I and press Reset on the Control Deck. Then press either A or B on Controller II.

If you pressed A, you can select any section of any stage.

If you pressed B, you can start at the beginning of any stage.

Press and hold A and B, then press Reset on the Control Deck. You’ll notice a change to the Option character on the title screen right away.

Play the game and check out the other character changes that have occurred through this strange code.
From Agent #544

Stage Select

Any of the seven stages of this journey through a huge alien creature can be accessed instantaneously with a quick code. On the title screen, press the Start Button and you will see copyright information about the game. At that point, press Left, Up, Right, Down, Up, Right, Left and Down on the Control Pad, then look at the table below and press the direction on the Control Pad or the button that corresponds with the desired stage. If you then press the Start Button, you’ll start at the beginning of the selected stage. If you press and hold the A Button, then press the Start Button, you’ll start at the mid-point of the selected stage.

On the second title screen, press Left, Up, Right, Down, Up, Right, Left, Down and one of the following key strokes to select the desired stage.

Press Left, Up, Right, Down, Up, Right, Left, Down and Down again to select Stage 4. Then press and hold A and press Start to begin in the middle of the stage.

From Agent #490

Re-Energize

A familiar code that is used for several Konami games can also be used in this odd adventure from Meldac. If you’re low on energy, press the Start Button to pause the game. Then press the directions on the Control Pad and the A and B Buttons in the following order: Up, Up, Down, Down, Left, Right, Left, Right, B and A. When you resume play, you’ll have full energy. This code works only once per game, so use it only when you really need the energy.

Pause the game, then press Up, Up, Down, Down, Left, Right, Left, Right, B and A to re-energize your floating head.

Sound Test

You can listen to the sound effects and music of the Zombie Nation with a few key strokes. Press and hold Up on the Control Pad along with the A and B Buttons, then press Reset on the Control Deck. A screen showing sound selections will appear. Change the selections by pressing Up and Down on the Control Pad. Then press the B Button to start the sound.

**From Agent #317**

**Top Secret Hide-A-Way**

By unlocking the Top Secret Area in the Donut Plains, you can earn an unlimited supply of Cape Feathers, Fire Flowers and 1-Ups whenever you need them. You’ll find the entrance to the Top Secret Area in the rafters of the Donut Ghost House. Get a Cape Feather from a red-Caped Super Koopa in Donut Plains 1, then enter the Donut Ghost House. There’s a second level of the Ghost House that you can get to by flying up and to the left. Run to the right first so that you get a good running start, then run to the left with super speed and jump when you get close to the left wall. Run to the right once you get to the second level, then release the four 1-Ups from the Blocks near the door and leave. This alternate exit will put you on the path to the lucrative Top Secret Area.

**Quick Save**

While you can save your progress whenever you complete a Fortress, Castle or Ghost House, there may be other times that you’d like to record your accomplishments. Since it’s quick and easy to get to the alternate exit of the Donut Ghost House, you can save your progress anytime. Enter the Ghost House with a Cape, then fly up to the second floor and run to the exit. You’ll be given the option to save your progress and continue playing.

**Cape Maneuver**

By swinging Mario’s Cape with the Spin Jump or Standing Spin, you can hit enemies and Blocks from the side. This is an especially useful maneuver in the five-floor chambers where the three Blocks on each floor must each reveal an “O” in order to produce a 1-Up. If you hit the Blocks from below, there’s a chance that some of them won’t show an “O”. If you hit them with the Cape from the side, though, you’ll have a 100% success rate. Just step to the side of each Block, Spin Jump by pressing the A Button and, when you hit the Block, an “O” will appear. The third Block on each floor will produce a 1-Up.

**Enter the Donut Ghost House with a Cape, run to the left and fly up to the 2nd Floor**

**Run to the right until you reach a door to the alternate exit.**

**Once you go through the Exit Gate, you’ll be on the path to the Top Secret Area.**

**Power Up in the Top Secret Area with 1-Ups, Cape Feathers and Fire Flowers.**

**Hit the Blocks from the side with the Cape by Spin Jumping and they’ll show an “O” every time. When you hit all three of the Blocks on a floor, you’ll earn a 1-Up.**

**Fly to the second floor of the Donut Ghost House and run to the exit on the right.**

**You’ll be able to save your progress in no time, then take a break!**
**Super Mario World**

**From Agent #536**

**1-Up Bonanza**

The dozens of Koopas in Vanilla Secret 2 can help you earn as many as 50 1-Ups at a time. First, you’ll have to get to this secret area. You’ll be able to branch off to the left of Vanilla Dome 1 and head toward the Vanilla Secret areas easily if you hit the Switch in the Red Switch Palace. The Key to the Palace is in Vanilla Dome 2. Swim through this water world until you have a chance to go out of the water and to the left. You’ll find a P-Switch there. Carry it to the left until you get to a wall. Then hit the P-Switch, run through the Coins to the left and drop into the second gap. You’ll find the Key and Keyhole down and to the left.

Once you’ve hit the Switch in the Red Switch Palace, you’ll find stairs and a platform made of red Blocks in Vanilla Dome 1, allowing you to reach the Key to the Vanilla Secret areas.

Make your way to and through Vanilla Secret 2. Then re-enter the area, break through the Middle Gate and leave quickly by pressing the Start Button and the Select Button. Now you’ll be ready to perform the trick. Enter Vanilla Secret 2, move to the right until you get to a Spinny-filled area and hit the second Block to reveal a grey P-Switch. Take the P-Switch to the left and hit it when you are between two purple Pipes. All of the enemies in the area will turn into grey Coins. Run to the left with super speed and collect as many coins as you possible can. You’ll first earn progressively more points, then you’ll earn as many as three 1-Ups per Coin. By the time the Coins turn back into enemies, you’ll have earned 40 to 50 1-Ups!

**Yoshi Boost**

Yoshi is one high flying dino. You can use his lofty jumping skills to boost your own mid-air acrobatics. While you’re riding Yoshi, press the B Button to make him jump. Then, when Yoshi reaches his peak, press the A Button to jump off his back to the top of the screen! This awesome height will come in handy at Exit Gates where it pays to break the tape when it’s at the top.

*INFORMATION*

*CLASSIFIED INFORMATION*
For a quarter of a century, the Starship U.S.S. Enterprise™ and her crew have been carrying out their mission “to explore strange new worlds... to seek out new life and new civilizations... to boldly go where no one has gone before.” And now, on the year of STAR TREK’s 25th anniversary, the Enterprise warps into the world of the NES. STAR TREK, from Ultra Games, finds the original crew in uncharted space with little power and no dilithium crystals. As Captain James T. Kirk, it’s up to you to lead your ship to safety by giving orders to the crew on the bridge, heading search parties on planetary surfaces and looking for a way to bring power to the ship’s engines. When you’re on the bridge, the game takes on a role-playing atmosphere. Crew members give you details on the ship’s position so that you can make decisions based on what they have discovered. The action heats up when you beam down to the surface of unknown planets. In your search for dilithium crystals and clues, you’ll encounter strange aliens, mysterious traps and many helpful items. While there are several planets that you can explore, this review covers only the four planets to which you must travel in order to complete the mission and return safely to Federation space.
Captain's Log: Stardate 2831.3. While exploring strange gravitational disturbances in the Sigma Lotia System, our ship was caught in a huge dimensional gate. Unable to break free, we were pulled into the gate and have now been sent to uncharted regions of space. Mr. Scott has informed me that warp engines are down, we have no dilithium crystals and we will lose impulse power in two hours. Our only hope is to beam down onto the planet that we now orbit and find a way to power the ship. The search party will consist of myself, First Officer Spock and Dr. McCoy.

Take Control

While you command your ship, the crew provides you with information on your current situation.

Consult the members of the crew, then plan your next move.

Start Here

You'll see a total of 26 planets in your journey, though you will not be able to visit them all because of their hostile environments. Very little is known about the planets on the map below.
Mr. Spock's readings indicate that there are dilithium deposits in a structure on the planet's surface. The structure resembles the Aztec Pyramids of Ancient Earth and it is producing considerable amounts of energy. There are also life forms in the immediate surrounding. Mr. Spock suggests that you form a landing party and beam down to investigate the structure.

**The Village of the Cat People**

A village elder will tell you that the structure to the north is a temple and that the key to the temple has been lost in the swamp. Talk to the medicine man of the village and he will make a repellant for you that will work against the swamp's many blood worms.

**The Swamp**

A creature named Adengu has taken the Eye of Kakos to the swamp. The Eye works as a key to the temple. Tricorder readings indicate that there are life forms close by. Stun them if they attack and search for the Eye in the swamp's grassy areas.

**The Temple**

Enter the temple by using the Eye of Kakos and take note of the designs on the temple walls. Eventually, you'll come to a series of rooms with floor tiles that mirror the wall designs. Walk on the tiles in the correct order and you'll pass several dart-shooting statues unharmed. In the heart of the temple, there are more designs and a series of panels. Touch the panels in the right order and the door to the dilithium will open.

---

**BEAM DOWN**

Your landing party will beam down to a forested area on the planet that is infested with blood worms and shooting plants. Stun a plant and take a sample.
Beam Up The Dilithium

The dilithium deposits act as a power source for the temple. The few crystals that you need for the U.S.S. Enterprise’s warp engines though, will not effect the source’s energy output. Beam them up to your ship.

The dilithium crystals that you picked up in Masaba will only take you as far as this planet near the edge of Romulan space. Sensors have picked up some traces of dilithium. Beam down to the surface with a Geologist and a Security Officer to investigate. The Geologist will help you track down the dilithium and the Security Officer will bring along some much needed fire power. When you reach the planet’s surface, follow the Geologist’s directions to the dilithium. Once you have it, beam back to the Enterprise and return to the planet with Mr. Spock and the Security Officer.

To The Alien Structure

A powerless robot blocks the path to the Alien Structure. Mr. Spock will be able to move it out of the way by using the dilithium crystals. Continue to the structure, then fire on the door with phasers.

Pick Up The Pieces

You’ll find a computer module and a piece of trash in the eastern part of the building. Take them and look for two more modules. One is behind a force field and the other one is guarded by security robots. Throw the trash through the force field onto the first module.
Activate The Computer

Once you have all of the modules, seek out the main computer and put the modules in their proper places. When the computer is operational, you'll be able to enter a room in the southwest where you'll find a considerable amount of dilithium.

PLOT A COURSE FOR SHROUD IV

With the amount of dilithium that you've collected, you'll only be able to make it to Shroud IV in the Neutral Zone by crossing Romulan space. On your way, you'll be intercepted by a Romulan ship. Communicate with the ship's captain, explain that you mean no harm and he will understand after examining your ship's records. As long as you don't panic and call for a Red Alert, you'll be able to make it to Shroud IV without a scratch.

HUNT AND GATHER

There are a few seemingly insignificant items on the surface of Shroud IV that will come in handy. Pick up everything that you can.

Visit The Inn

No episode of STAR TREK would be complete without a beautiful green alien woman. Enter the Inn to the east, collect the passcard and you will find such a specimen in one of the rooms. Charm her with a flower, Captain, and she'll hand you a remote control.

Move The Rock

There's a huge rock just to the west of the Inn. Use the remote control to move the rock and you'll find several useful items: a bottle of Saurian drink, a sack of credits and a letter from the infamous Harry Mudd to a group of Romulan renegades. Return with those items to the Inn, then use the Saurian drink and root in the Inn's food synthesizer to make a sedative.
A Confrontation At The Bar

Inside the bar, you’ll meet up with an old acquaintance by the name of Gorn who is, naturally, blocking a doorway. Use the butterfly to distract him. Then pass by and purchase a scanner from a shady character in the next room.

Explore The Base

It seems that Mudd was going to exchange Federation documents for a cloaking device with the Romulans, but the Romulans decided to take Mudd as a prisoner instead. You’ll find Mudd and a crate of dilithium crystals in the Base. Stun the guard, save Mudd and he’ll reward with both the documents and the device.

Meet With Mudd

In the room just south of where you bought the scanner, you’ll be able to listen in on a conversation with Harry Mudd and a pair of Romulans. Work your way around to where Mudd is and give him the letter.

The Plot Thickens

Mudd is up to something and now he has Spock’s communicator. Look for him at the Inn. You’ll get a message from Mr. Scott that there’s a disturbance nearby. He’ll beam you to the scene. Walk to the southeast and use the scanner.

OFF TO FEDERATION SPACE!

Now that you have plenty of dilithium crystals, you can return to the safety of Federation space. There’s still the issue of how you got in this mess to begin with, though. Plot your course for lotia, which is where you were at the beginning, and investigate.

Warp To lotia

There’s bound to be an explanation for recent events. Return to lotia and try to pick up a few clues.
Catch Up On Your Reading

Beam down to the surface of the planet so that you can learn about the lotians. Outside the deserted library, you'll find a pile of books. Use the library computer and you'll learn that the lotians made a big mistake. Now, you've got to set things right.

Blast To The Past

While the lotians were not as advanced as the humans and many other species, you'll learn that they did happen upon a Federation communicator the last time members of the U.S.S. Enterprise crew were on the planet. By studying this highly technical piece of equipment, the lotians were able to develop their own technology and experiment with dimensional gates. The experiments back-fired, however, and resulted in creating the massive dimensional gate that sent the U.S.S. Enterprise to parts unknown. Now, you must return to lotia of the past and locate the communicator before it gets into the wrong hands.

REVISIT IOTIA

The last time that you visited lotia in this same time period, Dr. McCoy made a terrible mistake and left his communicator behind. Your mission now, is to get the communicator back from whoever has it and make sure that the doctor doesn't make the same mistake twice. Beam to the surface of the planet with Mr. Spock and Dr. McCoy. You'll see that lotia is a thriving but somewhat primitive planet.

Fight Crime

As soon as you beam down, walk to the west and enter a small pawn shop where a robbery is taking place. Stun the thieves before they have a chance to get away.

Talk to the storekeeper after you thwart the robbers and he'll hand you a deck of marked cards. You may need them later.
Search And Collect

There are several items scattered throughout the city streets that you should find to be useful in your journey. Never hesitate to pick up anything or help a person in distress.

Catch A Coin

Analyze the street grating in the northeast and you’ll find a coin that is just out of reach. Then get a phone number from the bartender at the casino and you’ll be able to use the coin to call a contact.

Take A Gamble

You’ll find an unconscious hoodlum in the casino. If you revive him, he’ll ask you for the “rocks”. By quickly researching lotian slang, you’ll discover that he wants the diamonds. Give them to him and take a set of counterfeit plates in exchange.

Cops, Cash and Crooks

The crime ring in the city centers on a counterfeiting operation. Now that you’ve got the plates, you can put an end to it all. First, though, you’re going to have to get the communicator back the same way Dr. McCoy lost it in the first place; gambling!

Let The Game Begin!

Make the card switch when the time is right.

Enter the back room of the casino.

Pay the dealer five grand to get into the game.

Fizzbin’s the game and the stakes are 5000 bucks and one Federation communicator. Meet the dealer in the back room of the casino and ante up. If you know when to hold ‘em, know when to fold ‘em and know when to slip in the deck of marked cards, you’ll walk away one communicator richer. Just remember, a supernova beats a black hole, and you should be able to beam away without causing any catastrophes in the near, or far, future. It may not have been right to change history but, if you hadn’t, the consequences would have been disastrous. Sometimes, it pays to take a gamble and make a bet with destiny.
Lace up your spikes and hustle on out to the field in this new game from LJN! Roger Clemens MVP Baseball is one of the most realistic baseball games you'll ever play! **THE SCOUTING REPORT:**

Exhibition games are a good time to scout the strengths and weaknesses of the other teams. Just like in spring training, these games are also a good place to test different combinations of players. Try playing without a designated hitter (DH) and see how well your pitcher can hit!

**A POSSIBLE CHAMPIONSHIP SERIES?**

You never know who you might play in the Championship series. Choose teams from either league and play out your own dream games!
MAJOR LEAGUE GRAPHICS WITH A TWIST

These players have all the big league moves. Watch them make a spectacular plays! The realistic animation makes for one of the best NES baseball games we’ve ever seen!

BATTING

Fast reflexes and the ability to anticipate the next pitch are skills needed to hit the ball.

PITCHING

Keep’em guessing with a tricky curve ball or change-up.

FIELDING

Because of the unique perspective, you’ll have to stay on your toes to field the ball from the player’s viewpoint.

STEAL AWAY!

Stealing is a risky way to move players around the bases, but if they score it will be well worth the gamble!

PENNANT FEVER

Some say that this is the only part of the season that counts. Your team has chased the division leaders all season long, but now it’s time to really play some baseball.

REGULAR SEASON

You’ll play the last half of the regular season, August through September.

It’s every fan’s dream to see the pennant race come down to the final games of the season! Check the standings after every game to see how you are doing. It’s important to do well in every game to stay on top!

WORLD CHAMPIONSHIPS

If you’re good enough to win your division title, then get ready for the World Championships! You’ll play a seven game series against the other league champ. Will this be your Championship season?
Princess Leia is being held captive in the huge Death Star, but to find her quickly you will need some help. In this case, R2D2 is your man (or rather your robot). You can pick up the helpful little droid in the Sandcrawler on Luke's home planet. When you reach the Death Star, fight your way to the computer room and switch to R2D2 on your subscreen. The droid can now access the main computer of the Death Star and display a map of the ship. Conveniently marked on the map are the locations of walls, elevators and your goals. One of those goals is Princess Leia, who can be found in the upper right corner of the Death Star. If you have trouble reaching the goals, remember that the trick to surviving in this game is knowing exactly where the enemies attack and when. In the Prison area of the Death Star, you will find elevators and prison cells. The prison cells have purple doors and the rooms are blue. Elevators have directional arrows. From the entrance, take the second "down" elevator to the right. Jump over the swift droid on the second floor and make a running jump to the left platform, then take the next two elevators down. Now go to the far right and take the elevator up. The final elevator takes you far down to a ledge with two prison cells and a power up ball. Leia is in the second cell. Once Leia is on your team, you can use her like the other characters.

**WHY DON'T THE METEOR POLICE SHOW UP AFTER I CALL THEM?**

Chances are you'll want to call the Meteor Police if Bernard is in your party. He can fix the radio in Dr. Fred's room so you can contact the Meteor Police, who roam the galaxy in search of the elusive Meteor. Head down to the dungeon after you call the "Comet Cops" and open the two doors that lead to Dr. Fred's lab. Use the glowing key to open the outer door and the combination from the Meteor Mess video game to open the second door. The Meteor Police have access to the inner realm once you open both doors. If one or both of the doors remain closed, however, you'll see the Meteor Police give up and go home. If you enter the lab before the cut scene of the Meteor Police arriving occurs, the Police will not show up. Wait about five minutes for the cut scene to occur.

**WHY WON'T WEIRD ED HELP GET RID OF THE PURPLE TENTACLE?**

Heroes sometimes try to do too much all at once. That can be the case when you use different solutions to the same problem in Maniac Mansion. For instance, if Michael and Wendy are on your team, you can get Weird Ed to help get rid of the Purple Tentacle by developing the film and giving him the plans, but you can also have Wendy type up the Meteor's manuscript and get a contract. The problem occurs when you go down to see the Purple Tentacle. If Michael has the contract, Weird Ed won't show up, even if you gave him the plans. Maybe it's because Weird Ed thinks you are betraying his cause. Who knows? Just don't expect Ed to save you at the last minute by hauling the Tentacle away. In this case, you'll have to use the contract to pass the Purple Tentacle.

HOW DO I GET THE COOKIE FOR THE DANCING MONSTER?

Like many puzzles in this game, you must piece together a solution from several sources. Begin in the Study. There you will find a card in the desk that has six numbers on it. Those numbers are the Atomic

Weights of six elements. Scroll 2 mentions three elements—Gold, Silver, and Mercury. The Atomic Weights for those three elements are the combination to the safe that holds Jar 3, and Jar 3 is where you find the cookie to feed to the monster. Once you have the Jar, break it open using the Axe. This is the first time in the game that the Axe can be used in this way. Give the cookie to the monster and it will give you the key that opens the floor hatch in the lab.

THE UNINVITED

HOW DO I DEFEAT THE SERVANT GHOST?

Although he's dead, the Servant Ghost still hates a mess, and spiders, too. Your job is to capture the Spider. Use the Spider Cider on the veranda railing and the spider will be paralyzed. Now you can take the Spider and use it on the Servant Ghost in the Servant's Quarters.

THE UNINVITED

HOW DO I OPEN THE DOOR IN THE CHURCH?

There is a simple way to open the closed door in the Church, but in the Uninvited, as in many tales of mystery and horror, sometimes the simplest things are the most difficult to figure out. In the house is a Gypsy Doll to which you must speak. From this Doll you will learn the spell of O SESAME. Sound familiar? It may remind you of "Open Sesame"—the famous spell that is used on magically locked doors. Use the O SESAME spell while inside the Church to open the stubborn door.

THE UNINVITED

HOW DO I DEFEAT THE GHOST OUTSIDE OF THE CHURCH?

The "classic" ghost will haunt you, and halt your progress unless you take drastic action. Like many creatures of the crypt, the ghost is afraid of fire. Use the matches to light the candles near the altar in the church. Take the candles with you when you go into the yard and the ghost will not bother you again.
CRYSTALIS

**HOW DO I FIND THE LOST CHILD IN THE SWAMP?**

Once you have the Gas Mask from Akahana, go to Oak and talk to the Dwarfs. None of them mention the child because at this point the child is not lost. Next, visit Tornel and undergo training. After receiving Telepathy magic, return to Oak and talk to the people again. This time you will learn about the missing child. Finally, you can enter the poisonous swamp and rescue him.

**CRYSTALIS**

**HOW DO I GET THROUGH THE BARRIER TO THE MOUNTAIN PATH?**

When your character fails to get through the barrier that blocks the path to Nadare's Inn, a message says that you don't have enough power. Even after getting the Tornado Bracelet and the Teleport spell you may receive this message if you used Teleport to go back to Leaf. Walk back to Leaf instead of using the quick Teleport spell and talk to the rabbit in the town. You'll learn what happened to the missing people of Leaf. Finally you can head up north to Nadare's Inn because the barrier will be gone.

**CRYSTALIS**

**HOW DO I DEFEAT THE STONE FACE IN GOA?**

After a meeting with your old friend Akahana, you'll head to the town of Goa. There you will find a corridor that is guarded by two lion statues that shoot fire sideways and blocked by a huge stone face that fires straight ahead between the statues. If you try to attack the Stone Face head on, chances are you'll get a nasty reception of shooting fire. Instead of attacking the Stone Face, avoid the flames by keeping to the far left side of the passage as you approach. In this way you can walk right up to the offensive mask and receive a message regarding the town of Shyron. Return to Shyron and defeat Mado to win the Ball of Thunder. With the extra power of the Ball of Thunder, the Thunder Sword has enough gusto to defeat the Stone Face back in Goa. So Goa for it!
When Metroid was first introduced for the NES in 1987, nobody had ever heard of Samus Aran. That changed almost overnight due to the game's super play control and the thrill of exploring a new world. Metroid was one of the first games that didn't force players to proceed in one direction. Beyond that, it was a challenge, and it still is.

A message is sent from the Galaxy Federal Police to destroy the Mother Brain and Samus Aran beams into the heart of the planet Zebeth.

The exciting spinning-jump made Samus a difficult target for enemies. Since Metroid, many other games have adopted this technique.

The enclosed caverns of Planet SR388 extend in many directions. In each section, Samus encounters new dangers and invaluable weapons.

INVASION OF THE METROID

A pirate ship discovers the remnants of an ancient civilization and a bizarre alien race hibernating deep below the planet's surface. When word reaches the galactic core of this sleeping menace, a call goes out to destroy the Mother Brain. Only one officer of the G.F.P. is willing to go—Samus Aran.
Scattered throughout the tunnels of SR388 are powerful weapons and life-support energy tanks—remnants of the civilization that was destroyed by the Metroid. Some of these powerful artifacts are found in the open, but others are hidden in the ceilings and walls. Search for them by blasting and bombing the stones.

The Ice Beam freezes foes temporarily. Once frozen, use them as stepping stones or blast them with missiles.

The Varia is one of the most difficult items to find, but it’s worth the effort. It is a type of armor that reduces damage from enemies and lava by half.

Although the Wave Beam is a powerful weapon, it does you no good against the Metroids. It is most useful when fighting Kraid and Ridley.

There are many surprises in Metroid. One surprise is that there are four endings, determined by how fast you finish the game. The chart to the right shows the items you should get and the order in which you should get them. The numbers correspond to numbers on the maps. The minimum essential items needed to finish the game are shown in red.

WIN IN TWO HOURS OR LESS TO SEE SAMUS ARAN'S TRUE SELF.
THE BATTLE OF BRINSTAR

Samus' mission begins in an area of tunnels called Brinstar. Here the tunnels are composed mainly of stone and there are long shafts leading up and down. Prepare to meet many dive-bombing Skrees and Rios as you search for Power-Up options. This is the easiest area of the planet to clear, so use it to learn all of Samus' moves.

HIDDEN PASSAGES

Hidden passages and items are indicated on the maps by a star symbol.

HIDDEN ENERGY

Samus must use bombs or lasers to reveal the hidden tunnels and items. To reach the energy tank in the ceiling near the starting room, shoot it, freeze a Spiny or Skree about half way to the tank, jump onto the frozen creature and then jump to the energy tank.

QUICK ENERGY

Samus can quickly refill her energy tanks by defeating enemies that stream out of the pipes. Use the two pipe method. Stand between the pipes and zap foes from one pipe. When an item appears, grab it, then turn and shoot the enemy from the other pipe.

THE WAY TO TOURIAN

After defeating the Mini-Bosses, shoot the statues and take the elevator to Tourian.

CRITICAL HIGH JUMPS

You must have the High Jump Boots in order to reach certain areas, such as the room where the Varia is hidden. The Boots are in Norfair, so that should be your goal once you have collected as many items as possible in Brinstar. The High Jump Boots are also important to escape the Ice Beam area. You can also jump just as high your neighbors to get out.

To NORFAIR
Norfair is a region of lava pools and glass bubbles. This is where you will find the Screw Attack, Wave Beam, and High Jump Boots, plus extra missiles and energy tanks. Take the Ice Beam with you and freeze enemies for platforms in order to jump over high walls. This is also the path to Ridley’s Hideout, which is your next target.

The Danger Zone
If you fall off these stacks of blocks into the lava, roll up into a ball and use your bombs to blow you upward to safety. It won’t be easy, so try not to fall.

The Road to Ridley
The next stop is in Ridley’s Hideout below Norfair.
The first real test for Samus will be the battle against Ridley. Ridley is a mutant dragon who is a servant of the Mother Brain. Although Ridley’s lair is called Hideout II, it should be the first hideout you visit. Use the map to plan the quickest route to Ridley. You don’t want to waste energy taking dead ends. Go left, down, right, down and left.

**PERILOUS PITFALLS**

In the bridge area to the left of the entrance to this hideout is a hidden pitfall. The stones look solid, but they aren’t. An energy tank acts as a lure to draw you in.

**A SECRET PASSAGE**

The tall pipe is impossible to jump over. Instead, try going under it. Back toward the entrance you can bomb down into the floor, then roll beneath the obstacle.

**RIDLEY: The First MINI-BOSS**

When you enter the chamber, Ridley begins firing balls of flame. Make sure your energy tanks and missiles are filled up. Two methods of attack can be successful. Using the Wave Beam, maneuver beneath Ridley’s platform and fire upwards. Keep jumping to reduce the damage. The other method is to use missiles from point blank range or near the door.

<td>This is a creature of fire, like the Multiviola. Different colors have different strengths.</td>
<td>This enemy is even tougher to destroy than others in the Viola family. Try missiles.</td>
<td>It jumps and attacks with awesome strength. Use the Screw Attack if possible, otherwise use missiles.</td>

Mini-Boss number two is Kraid, a reptilian monstrosity which fires spikes from its belly. Although the hideout is near the starting point of the game, visit Kraid only after having defeated Ridley. Here you will find treacherous shafts and other challenges.

**SMART JUMPING**

When you have to jump from one narrow ledge to another, the spinning jump can make the maneuver difficult. Instead, use the normal jump which is easier to control.

**IMPOSSIBLE PASSAGES?**

To get over these pipes in the narrow space available, Samus must be in Round Ball form. Use the bombs repeatedly to blow Samus up to the top gap, then move to the right. It's difficult to time the bombs correctly.

Kraid fires spikes from his gut—spikes with the power of Samus' missiles. It won't take many of these to finish you off. Again, there are two methods of attack. Jump on the spot where Kraid stands and use missiles, or jump and fire the lava pit with the Wave Beam.

**A SECOND HIDDEN TANK**

After defeating Kraid you can get a reward. Below the door ledge is a hidden energy tank. Reveal it by jumping down and shooting it. Then roll up in a ball and as you fall toward the lava push right. In this way you will touch the tank and collect it.

**VOLUME 29**
The final leg of the journey is through the Metroid-infested halls and shafts of Tourian. Before you can enter, you must defeat both Mini-Bosses, then shoot the two statues, which activates a secret bridge. Then you descend into the realm of the Mother Brain.

**METROID MANAGEMENT**
The Metroids don’t die easily. Two steps are required to defeat them. First, blast a Metroid with the Ice Beam, freezing it solid. Second, use five missiles to destroy it. Defeated Metroids leave behind super energy and missile refill that quickly replenish your stock.

**FILL’ER UP WITH METROID**
The fastest way to replenish Samus’ energy and missiles is to go back and forth through this door. Each time you come out, defeat the Metroid and collect energy and missiles. Then go into the door again: A number of Metroids will always appear when you come out the door.

**RINKA RAIN**
Rinkas are rings of energy fired from nozzles near the Zebetites. They are the last stage of defenses for the Mother Brain. Use the Ice Beam to stop them, at least temporarily. Try to dodge as many as possible.

**ZAP THE ZEBETITES**
Zebetites are glass covered life-support devices that protect the Mother Brain. They don’t attack, but they can regenerate if you don’t destroy them completely. Fire missiles rapidly at the glass until a gap is left in the middle, then jump through and attack the next Zebetite.

**MEET MOTHER BRAIN**
As the controlling force of the Metroid and the despoiler of the planet, Mother Brain is one of the most dangerous beings in the galaxy. You’ll need full missiles and six energy tanks, because you’re bound to take a lot of damage while attacking this monstrosity from close range.
Below are some specialized tips and tricks to help you become a Metroid Master, but there are some general strategies that can also help. First, don’t waste time fighting everything in sight. Once you have the Screw Attack, just spin your way past foes. Second, write down and save your best passwords.

**THE METROID HOLD**

Metroids move swiftly and won’t let go if they grab you. If a Metroid does put its hold on you, there are two ways to escape. In most cases, roll up and use your bombs. Eventually the Metroid will let go. If you’re near a door, go through the door; the Metroid won’t.

**BOMBING UP**

Use the Bomb Up technique in narrow places or when escaping lava. Roll up in a ball and bomb as fast as you can. Timing is a matter of luck and perseverance. You’ll need several consecutive blasts to blow you over a tall obstacle.

**IN A TIGHT SPOT?**

If you’re in a narrow tunnel like those found between doors and an enemy is attacking, use the Screw Attack. It may not look as if the Screw Attack will work, but it will and you’ll destroy the enemy.

**ENTER THE HIDDEN WORLD**

Go to Hideout II when you found the Energy Tank. Shoot the door. Let the door close on you. Press Up and Down rapidly to scroll to the top of the screen. Push A. Repeat the process and take the third blue door on the left.

**JUSTIN WHO?**

JUSTIN BAILEY is the top half of a code that lets you begin with full missiles and six tanks.

PASS WORD PLEASE
JUSTIN BAILEY

**THE UNIVERSE HAS EXPANDED!!**

For years Metroid has thrilled video game players around the world. Even today with more sophisticated technologies and programming, Metroid stands out. That’s what makes a classic—the test of time and popularity. Good programming never gets old.

Metroid II for Game Boy is coming out this fall with Samus challenging a vast new world. More on this later.
Shatterhand's new super fists give him an edge against the Metal Command's cyborg army. And he can make them even stronger by "energizing" them at Power-Up Stations found throughout the Metal Command's domain.

Hi! My name is Steve Hermann, and I need your help! It's the year 2031, and a group of renegade military scientists, led by General Gus Grover, has banded together using new cybernetic technology to create an army of cyborg soldiers. Their goal: to take over the world. We named this revolutionary group the Metal Command, and formed the Law and Order Regulatory Division (L.O.R.D.) to combat them.

I used to be a police officer in the Bronx. Ambushed one day by a pair of Metal Command cyborgs, I had my hands crushed before I could escape. L.O.R.D. approached me, offering to replace my hands if I joined them. I agreed, and they gave me a pair of cybernetic super hands, capable of shattering metal on impact. I'm now known as "Shatterhand," and my mission is to crush the rebellion with my new metal bustin' hands. Help me storm through General Grover's cyborg defenses and take him down!

Shatterhand comes to the NES from Jaleco and was developed by Natsume, and it is a great action game! With graphics and play similar to S.C.A.T. and Shadow of the Ninja, and a variety of unique features, Shatterhand has tough action that promises to provide a challenge even for action game experts!
POWER-UPS COST COLD HARD CASH

The Extra Power, Health, and 1-Up Stations along Shatterhand’s arduous route don’t offer their services for free. Try to carry some money with you at all times, and be sure to grab any dough dropped by shattered cyborgs. Sometimes a bag of gold can even be found in one of the white boxes that are left in each area.

BAGS OF GOLD
If you should happen to come across one of these treasures, punch it as fast as your fists will fly to get the most money before it disappeared.

EXTRA LIFE!
This, the most expensive of the shops and stations in the Metal Command’s realm, offers a valuable commodity: an extra life that gives you an extra chance to clear a difficult stage. If you have the money, step here to invest in your future and prepare for the upcoming cyborg smashing invasion.

HEALTH STATION
Never miss an opportunity to completely refill your life at one of these rarely seen places. You never know what the Metal Command might have lurking about in your near future. To visit the station, just kneel down on top of the platform. However, the cost varies, so always keep some money with you!

FIST POWER-UP
This station doubles the power of your fists for some seriously penetrating punching. The power fades as your life meters go down, so avoid hits. Shatterhand’s vest, which is usually green, turns brown when you have “the power”.

SEQUENCE SATELLITE ROBOT TYPE SATELLITE ROBOT TYPE

βββ  Greebodot hurls down a grenade at cyber-foes ahead of Shatterhand each time he throws a punch.

ββα  Press B to prime Pyrobot, then press and hold B down to shoot out a long fiery jet that batters your cyborg enemies in range.

βαβ  Yojobot fires three spinning orange discs that rotate rapidly around like yoyos on invisible strings and return after a short time.

βαα  Firebollbot discharges four blazing energy balls that shoot in the air and hover upwards to roll off along the ceiling.

ααα  Yojobot launches a single energy ball that rapidly whips back and forth.

ααβ  Lasermoh fires a devastating laser beam.

αβα  Swordbot attacks at enemy cyborgs by swinging a long and lethal sword.

αββ  Ricobot spits out three spinning discs that ricochet off the walls until each fades away.

WHITE ITEM BOXES
When Shatterhand runs across a white box lying around, be sure to punch it to reveal the contents. Most contain items useful to him on his mission.

OPEN BOXES WITH CARE!
Stay alert when punching open White Item boxes. White meat hold useful items, some are booby trapped with a grenade as part of the Metal Command's effort to try to stop our hero. If you find one, jump away quickly to clear the blast. They have really short fuses!

SATELLITE ROBOTS!
In some white Boxes, Shatterhand finds “alpha-beta” boxes that hold satellite robots. You can determine the type of robot by picking up three alpha and beta boxes in particular sequences. Each of the eight sequences possible yields a different satellite robot.

ROBOTIC INVINCIBILITY
When Shatterhand manages to collect an identical combination of letters twice in a row, he temporarily dons cybernetic full-body armor and becomes invincible, with a powerful fireball as his key weapon!
**WALL-WALKING MECHADROIDS**

An annoying droid sometimes guards the many heavy barriers that Shatterhand must punch through. Some even pack lasers for added defense!

---

**AREA A: FACTORY**

Okay! You know what it's all about—now let's get going! The Factory is our first step in reaching General Grover and shattering the Metal Command! I'll have to punch my way through barriers, numerous cyborgs and other cybernetic obstacles as I head down into the heart of the Factory to confront the first area cyberboss, Balzire. I hope that we're ready!

---

**STRAteGIES FOR SURVIVAL AND SUCCESS**

Take the time to learn these few simple tactics to help Shatterhand in his formidable mission. If our man of the flying steel fists is to succeed in pulverizing General Grover and the Metal Command's revolution, he must make the best use possible from each of his abilities!

---

**SOME CYBERENEMIES ARE TOUGHER THAN OTHERS**

Shatterhand won't find all the enemy cyborgs to be easy targets. Some are really tough, and he'll have to really pound on them to clear his path again!

---

**RICOBOT: SHATTERHAND'S BEST FRIEND?**

Ricobot's powerful, far-ranging energy ricochets are very versatile and helpful weapons. Learn to use Ricobot well to clear out the treacherous course ahead!

---

**PROTECT YOUR ROBOBUDDY**

Shatterhand's little robotic pal can be a great help, but he can also be destroyed should he take too much damage. Be a good friend by protecting him.

**START**
CYBORG DOUBLE-TEAMING
In some areas, the scrolling allows cyborgs to attack our partly cybernetic hero from both directions at once. Watch out!

DROIDPOD GENERATOR
These generators pride themselves on being particularly irritating. They repeatedly send out a team of droidpods that like to home in on you. Punch them out one at a time, then go after the generator!

FUN WITH FENCES
Grab and hang onto these wire fences by pressing up on the control pad!

SECRET ROOMS?
Rumor has it that Shatterhand can find secret rooms by punching certain walls.

TELEPORT
Jump onto this handy teleport platform to gain access to Balzire’s chamber.

BALZIRE: FACTORY MASTER!
To beat Balzire, duck beside him and punch as he shoots upwards. Avoid the bullets as they fall back down. Jump over the energy balls he throws, and jump clear when he swings his gun to clobber you!

DECISIONS, DECISIONS
We’ve cleared the Factory and now must choose which of the next five levels to take on first!

Pick one of the five stage choices and get going!
**AREA B: REFINERY**
Steam vents and fiery floors are just a couple of the challenges in the Refinery. New types of cyborgs and other enemies generated by General Grover are lying in wait for me. The Factory was only a practice round compared to this!

---

**CYBORG COLOSSUS!**
This unfriendly metalhead lobs bombs and packs a vicious punch! To beat him, dash in, duck down, punch twice, then quickly leap back to avoid his power jab!

---

**STEAM VENTS**
Don't fall down in the steam vents!

**HARD TO REACH**
Stretch over the White Box to punch out this soldier.

---

**START**

**STEAM VENTS**
Don't fall down in the steam vents!

---

**Duck 'n Punch**
Duck when this soldier fires, then close in to punch him out.

**FANCY FOOTWORK**
These conveyor belts make punching difficult!

---

**POGOBORGS: REFINERY SUPERVISORS**
Twin cyborgs that like to leap high in the air and shoot lasers upon landing. Pogoborgs are easily smashed. Crouch down next to one Pogoborg in its corner and punch away! When it transforms, hit the worm creature's head repeatedly.

---

**CONVEYOR BELTS AND LAVA**
Move carefully and step lightly to move through this area unscorched.
I can see from this area that the Metal Command doesn't care about anyone but itself. The bombs are still falling from the skies, and the cyborg defense is out in force! The commander of this stage, Infernon, waits for me at the end of a nasty elevator ride.

**UP AND UP AND UP...**
This elevator shaft is a tower of fun, with falling bombs, dripping firepools and roving robotic helicraft, to list just a few things that'll keep our hero hopping!

**FALLING BOMBS**
The rain of bombs begins anew, so keep an eye to the sky and dodge swiftly!

**THE TOP IS IN SIGHT**
Here at the top, fight off an annoying helicraft and avoid getting ground between the gears.

**FLAMES, MOLTEN STEEL, AND GEAR!**
Pools of flame flow all around and fire drips from above. Watch the gearing and don't get pinched.

**HELI-MENACE**
This zippy little helicraft is really annoying. Crouch in one spot and punch quickly as he buzzes in to ground him.

**BLAZING CEILINGS!**
Watch your head as you jump through this section. If you jump too close to the flames in the ceiling, Shatterhand's going to get his head scorched! Jump from a lower point on the fences to prevent burns.
AREA C: SUBMARINE
This submarine is defended by some of General Grover's more unusual cyborg creations. There's stuff in here that I really don't want to see! Taking out their submarine should seriously weaken the Metal Command, so here I go!

STEAM JETS
These steam jets spout out regular clouds of vapor that will scald whatever gets too close.

AREA E: ANTI GRAVITY RESEARCH CENTER
General Grover's home away from home, the Research Center is where he cooks up all his cybernetic inventions. From what I've seen of this stage, he's becoming very creative. Destroying his cyborg kitchen will be a blast!
**PULLING: SUBMARINE BOSS**

Sinking, flying cyborg. Cyborgate likes to toss from his perch on the wall. He will then fly him, wreaking havoc on whatever might be in the way.

**GROUNDING A CYBERFLIER**

Pick up or down the wall until he's on your level, toss out a few energy balls, and catch the room! To beat him, stand at the right corner and turbo-punch when he starts blinking, quickly leap up and above you, allowing him to fly under and allow his energy balls, and then leap behind the fence when he zig-zags across the room for a painless victory!

**PIPE SURPRISE**

This tough "Cyber-...is going to get a surprise! Watch these guys.

**GRAVITUS: ANTI-GRAVITY RESEARCH CENTER BOSS**

Gravitus is a unique cyborg apparition. He floats ghost-like through his room, reversing gravity as he pleases and stopping occasionally to blanket the entire room with a rapidly expanding ring of energy balls! **HIT HIM WHEN YOU CAN**

Defeating Gravitus takes patience and the ability to walk on the ceiling. Dodge his energy balls when he energizes his ring of death, then leap up (or down, if he's used a gravity bomb) to punch him when he glides within reach!

SPECIAL FEATURE
GAME BOY

- Castlevania II: Belmont's Revenge
- Bart Simpson's Treasure of Camp Deadly
- Track Meet
- Monopoly
The Belmonts are back, and so is Dracula in Konami's second Castlevania action epic. The time is 15 years after Christopher Belmont thought he had put an end to Count Dracula in Castlevania: The Adventure. Now his son, Soleiyu, has vanished, and four evil castles have risen mysteriously from the earth. Once again a Belmont must rely on his courage and quickness. He'll have the aid of the Mystic Whip, a Battle Axe and explosive bottles of Holy Water. There are some new moves, too, like the ability to slide down ropes. The game controls are better than ever, but the challenges are also greater. So enter the haunted realm, if you dare.
Journey Through Four Castles

At a ceremony to mark the passing of the title of Vampire Hunter from father to son, Soleiyu Belmont disappears. At the same time, four castles erupt from the earth—a mute challenge to Christopher. Each of the castles has its own special brand of horror lying in wait, but Christopher must pass through them all to find his son. You decide which castle to tackle first, second, third and fourth. None will be easy. Only after defeating each of them will Dracula’s Castle appear.

Crystal Castle

The Crystal Castle is built of delicate crystals, some of which may shatter if stepped upon. You will also discover pools of water, bottomless pits and walls of moving spikes. A fierce new enemy waits in the depths... and after that you’ll face the guardian!

Cloud Castle

The Cloud Castle may drift in the sky, but it is made of stone and steel that can break the unwary Vampire Hunter. Concentration and quickness is essential to get past the mechanical pulleys and giant spiked balls that shoot upward to the ceiling with crushing force.

Rock Castle

New and old dangers lie ahead in the Rock Castle. Be careful when using your whip on the candles as some may cast you into darkness, and you don’t have a match! Long spears thrust out at walls and ceilings; spikes drop from above. The armored iron ball is waiting.

Plant Castle

In the Plant Castle, Christopher meets a host of new foes, including skeletons who throw bones and spiders who drop from the shadows. Bridges must be crossed with care and spiked ceilings may prevent you from jumping out of the way of danger. Kamelo and Himbelor wait at the end.

The Weapons

Choose your weapon with care. The Chain Whip is best. Use the Battle Axe or Holy Water near the area in which it is found.

- **Leather Whip**: You’ll begin the adventure with the short leather whip.
- **Chain Whip**: Gain extra power and distance when you use the chain whip.
- **Battle Axe**: This axe can be thrown at enemies if you have enough hearts for power.
- **Holy Water**: Throw the bottles at Holy Water at focus and watch them burst into flames.
Dark Side Is A Shocker
The guardian of the Crystal Castle is Dark Side. He controls a lightning cloud that attacks with electric bolts, and in this room, lightning does strike twice.

Release The Crystals

Hidden Rooms
Not every stone is as solid as it seems. Try climbing beyond the end of ropes into the brick ceilings.
Hidden rooms and items are found in the walls and ceilings of the castle. Only a few are shown here.

i-Upmanship
For extra lives, look for the 1-Up symbol on the maps.

Slide-Of-Hand
Christopher's great new move is the ability to slide swiftly down ropes by pushing the A Button. Use this technique in the long shaft. Even so, you can't go the distance in one slide before the spikes move in.

The Merman
The Merman is perhaps the most difficult of the non-enemies in this game. His leaps carry him from one side of you to the other while he throws knives.

Jump to the center of the room from the ropes. Here in the open you have room to maneuver.

As the Merman touches the ground, turn and whip him. He's very fast, so turn quickly.
The Crystal Castle has many dangers, and many of them will be new even for seasoned vampire hunters. You are bound to take a few hits when you first start out, so whip the walls, especially above doors at the end of each stage, to search for life-replenishing meat. Listen for the ominous sound of cracking crystals, as well, for it signals danger. But the real challenges within come from the many creatures of darkness. Whip all the candles so you don’t miss a weapon that could help you in the vicinity.

**Fragile Crystals Underfoot**
Many crystal blocks in this castle are old and worn. If you stand on them for more than a few seconds, they may shatter. Your only choice is to jump quickly from one crystal to the next. In some places you may have to dodge bats at the same time. Take a look at the crystals and the ceilings, to plan the safest route.

**Coins For A Longer Life**
Collect coins to earn points and lives. Every 20,000 points earns you a life. At the end of a stage, extra hearts become bonus points.

**Whip Into Shape With Power Crystals**
Turn your inanimate whip into a chain whip, and a chain whip into a fire whip by grabbing Power Crystals. The Power Crystals are hidden in candles, but they are rare. If you lose a life, a Power Crystal will be close to where you begin again. Whip every candle in order to release Crystals and other vital items.

**A Tough Axe To Follow**
Sleep down the hole to the moving platform and jump to the right ledge to claim the Battle Axe.

To escape from this dead end, jump to the pillars on the left and from there to the moving platform.

**Keep Time**
You have a limited time to get through each stage. If time runs out before you reach the next door or the end of the castle, you’ll lose a life.

**Take Hearts And Eat Beef**
Collect as many Hearts as you can in order to have the power to throw the Battle Axe and Holy Water.

Whip brick walls to uncover the hidden plates of Meat. Meat will restore your life meter.

**Enemies From Beyond The Pale**

- **Ravens**
  - Let these ravenous birds of prey pass overhead. Attack them when they swoop close to the ground.

- **Bats**
  - Look for bats on the ceiling. Many can be defeated as they sleep by attacking from a distance.

- **Knights**
  - Knights are slow but powerful and heavily armored. Use your whip repeatedly and don’t get too close.

- **Water Creep**
  - These creeping amphibians live in the pools and are hard to see. Crouch in the water and whip them.

- **Punaguchi**
  - Punaguchi spit balls that bounce and roll. Approach with caution, destroying the balls and the beast.

- **Big Eye**
  - Big Eyes drop from above and roll straight toward you. On bridges they explode and leave holes.
Aim For Sleeping Bats

Sleeping bats are an easy target. Don't give them the chance to wake up. Hit them from a distance while they are snoozing.

Stay the full length of your whip from the bat.
You'll defeat the bat before it can attack you.

ROCK CASTLE

The map of the Rock Castle looks fairly easy, but the long empty corridors are not empty. Rats, bats and other foul folk live here in great numbers. The wall spikes are another challenge. You must time your jump from one spike to another with great precision.

CLOUD CASTLE

The Cloud Castle is filled with deadly surprises, like the spiked balls that shoot to the ceiling when you touch their chains, or the pulleys that reverse direction. Spiked ceilings and floors don't allow any room for error. And while you're avoiding the traps, foes are attacking.

Quickness Counts

Jump from the top of the first rope to the next rope over. The spiked ball will zip upward!

Quickly climb up the rope then jump to the next rope before the spiked ball reaches you from below.
Kumulo And Nimbler
These guardians attack with fiery shots and trident tipped spears. Dodge the fire balls and strike each brute in the face.

Big Eye Bombs
Jump over the first Big Eye near the rope where there aren't any spikes overhead.
Run forward to the next batten patch of ceiling and jump over the second Big Eye.
Whip the fourth Big Eye and it blows a hole in the bridge. Drop through the hole.
Avoid the Punaguchi and head to the right. From there, climb down the rope to the right.

DRACULA'S CASTLE
The earth begins to shake and rumble, then the Castle of Dracula slowly rises from the dust. Now that the four smaller castles have been cleared of enemies, one final journey remains. Take a look at the map of the final castle that comes up on the screen before venturing inside. First you must cross the courtyard and defeat the Reapers. Inside are more sliding spikes, ropes, and monsters.

Bone Dragon
The head of the Bone Dragon appears from the root-tangled holes in the hallway and it snakes from one hole to another. The entire hallway scrolls, as well, which means you must continually move to the right. The head of the Dragon is its weak point, and it's best to strike it from the right side.
Leave one candle burning, or darkness falls.

Angel Mummy
The two-headed fiend comes out of the wall. Dodge the bones, but watch out for fire shots.

Iron Doll
At first the slow moving Iron Doll seems an easy target, but when it sheds its armor it becomes swift and fierce. Use the two ropes in the room to keep safe. Jump onto the ropes, then jump over Iron Doll, whip twice, and back off.

Don't Drop Out
The floor below is made of spikes that rise and fall. Each time you jump from one rope to the next, you'll land far down on the rope, well within reach of the spikes. Climb quickly upward to escape.
PLANT CASTLE

This castle is made of tangled roots and vines. Spiders, skeletons, strange beetles and exploding Big Eyes are just a few of the creatures who live within. Much of the fighting is done while hanging from ropes or spider threads, which limits your options for attack. Here you must learn new strategies.

The Final Struggle?

Beyond the Bone Dragon is the final confrontation for Christopher. But will you fight Dracula or an imposter? And where is his son, Solaeyu? To answer those questions requires the ultimate courage—to face the unknown.

Crossing The Spider Threads

In the hall of the spider threads on the opposite page, defeat the spiders only after they climb down.

Attacking spiders when they climb down the thread, not when they're near the ceiling.

Before you enter the dangerous domain of Dracula, a map of his castle scrolls by, displaying the passages you must tread.

Jumps on moving platforms and pulleys require critical timing.

Hit the Ravens, then duck the Reaper's flying scythe and jump over it as it returns.
RISE 'N SHINE, CAMPER! LET'S PLAY CAPTURE THE FLAG

Capture the Flag? "No problemo," thinks Bart. Until he sees the team rosters, that is, and finds that he's the sole member of Team A and that Team B includes Everybody Else. The "No Spitwads" rule is like an open invitation to Bart. Luckily for him, Lisa's hiding in a tree with a Boomerang that he can use to even the odds.

From the first staccato blast of reveille to the last mournful strains of taps, Camp Deadly is not for them. Escape is the only answer!

Armed with Spitwads and Boomeranges, Bart thinks he's ready to take on Everybody Else.

While he waits for his Boomerang to return, Bart shoots a Spitwad.

If he catches his Boomerang on its return, he can use it again.

LISTEN UP, SIMPSON!
Bart and Lisa are not happy campers! When Homer and Marge sent the kids off to a two-month session in the great outdoors, they had something slightly tarnar in mind than Camp Deadly. At least Marge did. Probably. At any rate, Bart and Lisa have just met master instructor Pott Purne, and they've quickly decided that boot camp is not for them.

Camp is not for them. A living nightmare.

From the first staccato blast of reveille to the last mournful strains of taps, Burns promises to make Bart and Lisa's lives living nightmares. Although playing Capture the Flag, lunching at the Mess Tent, and hiking in the forest sound like typical camp activities, at Camp Deadly they're strangely twisted.
STAGE 1: FUN AND GAMES

Watch out for enemies as you search for Flags. Use the Boomerang to attack enemies that flash, and pick up the Chocolate Kisses they drop. Each Kiss lets you absorb a hit without damage.

KILLER BEES!
Swarms of Bees circle the hives in a mad pattern. Wait for them to move to the lower left before you go out on a limb.

BLINDSIDE BILL
Climb up to find Bill's tree house. Jump over him, then turn and toss a Boomerang at his back.

DON'T GET STUNG!
When Bart blindsides Bill, Lisa gives him a beekeeper's hat that protects him from swarms. Its power doesn't last long, though, so hustle down the tree and grab the Flag by the hive before the safety net disappears.

HIT RICKY ON THE REBOUND
Jump over Ricky, throw the Boomerang towards the wall on the right, then jump back and let it hit him as it returns.

BREAK FOR LUNCH
Camp Deadly's Mess Tent offers a full-meal deal that's more than even the hungriest camper can handle, but food fights are forbidden. The tofu burgers, broccoli and pomegranates on the menu can be used as weapons against enemies, but don't let the mess monitor catch you tossing your lunch. Your enemies retaliate, too—watch out for flying flatware!
After lunch, it's right back to capturing flags, but while you've been pigging out, Killer Hornets have moved in and sneaky snares have been set. Keep your eyes peeled and look for signs of pitfalls ahead.

**KILLER HORNETS!**

What makes them so mad? That's none of your beeswax—all you need to know is that you'd better see them before they see you! Inch slowly to the right. When you meet one, strike with the Boomerang before it moves.

**IT'S THE DINNER BELL!**

Mmmmm! The dinner menu features Spinach Pizza and Fish. And if you clean up your plate, there's Anchovy Ice Cream for dessert. Twice as hard as the Lunch stage, Dinner serves up lots more enemies. Will Bart face them solo? That depends on whether or not you freed Madman Krogan.

**JASON AT CAMP DEADLY?!**

No, but another madman is behind the mask: Madman Krimmel Krogan. He's been snared, and you have to decide his fate. You can either take him out of the game with your Boomerang or set him free. Which will it be?

**ONE BAD APPLE**

An apple a day may keep the doctor away, but being pelted with tons of them can be hazardous to your health. If you freed Krogan from his trap, he'll come to your aid, but if you did him in you're on your own.

**AYE CARAÑÁBA! A NUCLEAR SEWER!**

Tired of capturing flags, Bart thinks he's ready to explore the camp's sewer system. As he suspected, it's a nuclear nightmare. Radiation leaks from the pipes above in huge drops, so he'll have to time his moves carefully to avoid the fallout. Jump over the drops as they fall and watch out for pits.
LATER FOR CAMP DEADLY, MAN

Bart and Lisa finally have some time to put their heads together during a free exercise period, and they aren’t about to blow this chance to plan their escape. The camp seems airtight, but Bart’s willing to bet that Mt. Milehigh has a hole in its security system. What’s a little hike when your freedom is at stake? But wait! What’s that in the bushes? Could it be an elusive Camp Deadliant Vulture? Or is it just an eavesdropping Iron Fist Burns? Cool it on the planning session, Bart and Lisa—it’s time for action!

MT. MILEHIGH

Why does Bart want to climb Mt. Milehigh? Because it’s there—and because the sign tells him not to. He’ll face more than the forces of nature on this hike, though. Bats, birds of prey and rock-throwing thugs add to the challenge.

DO NOT FEED THE BEARS

For once Bart should heed a warning! The big, bad Bears in this forest are snoozing, but not soundly. They’re very light sleepers, and they’re incredibly cranky when they wake from their naps. Be cool, Bart.

LIGHTS OUT FOR CAMP DEADLY

What’s a Power Plant doing out in the woods? Naturally, Bart is bound to find out. “Cool, man. Look at all of those buttons! Do Not Touch? Well, here goes!” With one touch of the button, Bart pulls the plug on Camp Deadly. Can camp continue without electricity? Not this one! Deadly’s done for, and lucky campers are spared Tofu Burgers and Anchovy Ice Cream, thanks to Bart and Lisa. You just have to have the Simpson touch, man.
You're In the Blocks

Get ready to run, jump, throw and lift your way to the winner's circle in Track Meet from Interplay. You'll need good coordination to succeed (and it doesn't hurt to have incredibly fast thumbs either). Track Meet can be played against the computer or against a friend using the Game Link cable.

Here's Your Competition

There are five different opponents waiting to challenge you. Each of your opponents has certain strong and weak points that you can use to your advantage. These guys will do some pretty wild and crazy things. Just remember not to drop your Game Boy if you start laughing too hard!

- **Ricky the Barbarian**
  - He's big.
  - He's dumb.
  - He's slow.
  - He's also your first opponent. The only thing you really need to look out for with Ricky is the weightlifting event.

- **Swami Pastrami**
  - Swami Pastrami practiced for many years as a magician—a really BAD magician. Be careful! He's still got a few tricks tucked in his turban.

- **Kenichi Nakama, Ninja**
  - Kenichi is a good all-around opponent. You'll just need to have "ninja-quick" thumbs.

- **Jack Strap**
  - Jack is nimble. Jack is quick. That's why he's the best. He doesn't appear to have any obvious weaknesses. Good luck!

- **Irwin the Cheater**
  - His name says it all. Irwin will stop at nothing to win. Outsmart him, if you can!

Select Game

This is where you pick the type of game you wish to play.

- **New Game**
  - If you're starting a new game, this is the option for you. You will enter your name, then start the competition.

- **Continue Game**
  - If you choose Continue Game, you will be asked to enter your name and password.

- **Practice Event**
  - If you want to practice the different events without the pressure of an opponent, choose Practice Event.

2 Player Game

You and a friend can work your way through all seven events. Take a tip from the computer-controlled opponents and try to make your opponent laugh while you're playing. It's sneaky, but it works!
Let The Games Begin!

OK, it's competition time. You need to get yourself ready both mentally and physically. First, take a few deep breaths, close your eyes and concentrate on doing the best you possibly can. Do a few quick thumb stretches to limber up. It would be quite embarrassing to pull a muscle as you're about to win! Seven grueling events are ahead of you. Let's take a closer look.

100 METER DASH

- The 100 Meter Dash is a simple event, but you need to be fast! As soon as you see “Go!” at the top of the screen, start pressing the A Button as fast as you can.

HURDLES

- In the Hurdles event, you press the A Button to run and the B Button to jump. In order to get the best possible time, keep pumping the A Button while you are jumping over the hurdles.

JAVELIN THROW

- First, run using the A Button. After you pass a line on the path, press the B Button to aim the throw and hit the B Button again to let go. Experiment with different angles.

POLE VAULT

- Again, use the A Button to start running. Press the B Button once to plant the pole, and again to let go. You can select the height of the crossbar. Practice makes perfect.

LONG JUMP

- Run like crazy using the A Button. Just before you get to the sand pit, press the B Button once to set your take-off point, and again to choose the angle of the jump.

DISCUS THROW

- Press the A Button again and again to spin. Then use the B Button to let go of the discus. Let go on your second spin for maximum power.

WEIGHTLIFTING

- This is probably the toughest event. Press the A Button as fast as you can to keep your power up. Hit the B Button three times to lift the barbell. Your timing has to be just right.

More Information

- False Start: If you start too early, you will exceed a beautiful face plant. Unless you have a really good plastic surgeon, you should avoid false starts at all costs.
- Winning: If you beat your opponent, he will show obvious signs of defeat. Meanwhile, you'll wave your arms around like a true champion.
- Stay Ahead: Try to stay a few hundred points ahead of your opponent. He will almost always win big in the last event, weightlifting.
- Oops!!!: Don't get too crazy in the discus throw. You might break something!

Your Rewards

- All truly great athletes should be able to display the fruits of their labor. As you defeat more opponents, your trophy room will begin to fill up.
Often called the most popular board game ever, Monopoly has been around since the mid 1930's. Parker Brothers has now released Monopoly for Game Boy. The game play is almost exactly like the NES version. You can test your luck and bargaining skills against up to three other human or computer controlled players.

A variety of Games

A normal game can be selected or one of the eight pre-programmed scenarios can be loaded. These scenarios add new twists to Monopoly.

There Are 8 Different Scenarios

- **The Big Boys**
  Each player gets full blocks of property and a fair amount of money.

- **Trader's Delight**
  Get ready to barter! The first turn of this game will be full of trading action.

- **Even Steven**
  The properties are divided more or less evenly between the players.

- **Small Stuff**
  All of the properties below Free Parking are owned. Buy some houses early.

- **Money Isn't Everything**
  Players start with plenty of property, but only $300. Be thrifty with your funds!

- **Short And Sweet**
  This scenario usually is over very quickly. Each player gets some powerful, developed property.

- **Building Shortage**
  You get plenty of property, but all of the houses and hotels have been sold.

- **It's A Start**
  This scenario is just what it says it is. Not much, but it's a start!

Use The Time Limit?

Monopoly games have been known to go on for hours. If you have limited time, use the Time Limit.
At the start of any Monopoly game, you generally want to buy as much property as you can. However, when your funds start to dwindle, you'll need to be more choosy about your purchases. This chart can help you be a smarter shopper.

The Monopoly board has four railroads and two utilities (Electric Company and Water Works). Many people avoid buying these properties because they do not appear to pay very much money when other people land on them. The thing to consider regarding these properties is how often people land on them. The railroads are, in fact, the most landed on property group.

The Hunt For Red October

Extra Subs and Missiles

Our agents off the Atlantic Coast have discovered two different codes for this underwater adventure. One allows you to start your mission with 25 Submarines and the other one awards you with 25 Missiles. Start the game and wait for the map to appear. Next, for 25 Submarines, press and hold the A and B Buttons, then press the Select Button, Up on the Control Pad and Down. If you'd like to begin with 25 Missiles instead, press and hold the A and B Buttons when the map shows, then press Up and Down. Your first Submarine will start with this extra load of Missiles. If it's destroyed, though, your next Submarine will start with the usual three Missiles.

R-Type

Sketch Bonus

You can take a break from blasting the Bydo Empire with a drawing program that is built into your R-Type Game Pak. Watch the demonstration of the game and wait for the list of high scores to appear. Then press Left and Down on the Control Pad and the A and B Buttons all at the same time. A program called the "De Souza Editor" will appear. Press the Start Button and you'll see a cursor in the upper-left corner of an otherwise blank screen. You'll be able to move the cursor with the Control Pad and draw by pressing and holding the A Button. If you want to erase, press and hold the B Button and move the cursor across the area that you would like to wipe out.

Go! Go! Tank

Invincibility Code

You can soar through the skies or tear up the ground with invincibility by keying in a special code for this airplane and tank battle. On the title screen, press Left, Up, Right, Up, Left, Up, Right, Up, Left, Up, Left and Start. The game will begin and your vehicle will be unbeatable!

**COMING SOON**

Fans of the NES classic, Metroid, have been hoping for a sequel to their favorite space adventure for a long time. And now, finally, it’s on its way, exclusively for Game Boy!

In *Metroid II—The Return of Samus*, the famed space hunter, Samus Aran, travels to the home planet of the deadly jellyfish-like Metroids to get rid of them once and for all. As Samus, you’ll explore the dark passages of the planet, learn a ton of cool new moves and, eventually, fight to the planet’s surface. Along with the classic Metroid weapons like Bombs, the Ice Beam and the Screw Attack, you’ll earn a new arsenal including a strange sphere that allows you to stick to walls and ceilings!

*COMING SOON*
1. **HOW MUCH WILL THE SUPER NES COST, AND WHAT IS INCLUDED?**

The Super Nintendo Entertainment System will include the Super NES 16 bit Control Deck, a Super Mario World Game Pak, 2 Controllers, an AC power adapter, a Stereo AV Cable and RF Switch, plus manuals and warranties. Expected retail prices will be in the neighborhood of $200 for the Super NES and around $50 for Super NES Game Paks.

2. **WHEN WILL THE SUPER NES BE AVAILABLE IN STORES?**

The first Super NES units and Game Paks arrived at stores in the United States during September, but some areas of the country may not receive the Super NES until later this fall. (The Super NES won't be available in Canada until sometime in 1992. We'll keep you posted.) If you're having trouble finding a Super NES, Nintendo Consumer Service Representatives will be able to help you find stores stocking Nintendo products in your area. Give them a call at the number listed on the next page.

3. **WHAT IS A 16 BIT MACHINE?**

The term “16 bit” refers to the Central Processing Unit of the Super NES, which is the brain of the system. It means that the Super NES can process 16 bits of information at the same time. That makes the Super NES twice as powerful as the 8 bit NES. The increase in processing speed means that the Super NES can produce spectacular effects such as color layering that allows you to see through objects or to rotate and scale backgrounds.

4. **WILL NINTENDO STILL MAKE NES GAMES?**

You bet! With over 30 million NES Control Decks in use in the United States alone, licensee programmers and companies aren't about to turn their backs on the NES. The top designers in the world will continue to create hits for the NES.

5. **CAN BOTH SYSTEMS BE CONNECTED TO ONE TV?**

Yes they can. You can hook up your NES using the RF Switch and the Super NES using the Stereo AV Cables as long as your TV or VCR has AV input jacks. If you don't have AV jacks, you can use two RF Switches, one plugged into the other. The system manual fully covers connections.
6 HOW MANY GAMES WILL BE AVAILABLE FOR THE SUPER NES?

When the Super NES went on sale last month, F-Zero and Pilotwings were also in the stores. Since then, games such as Gradius III, Populous, Chessmaster and Super R-Type have been shipped out. If they're not in the stores yet, they'll be there very soon. Super Mario World comes with the Super NES set. Other games that are scheduled to come out soon include Final Fight, UN Squadron and Drakken. More games will be coming out every month. At last summer's CES, more than 40 titles in progress were displayed, and about 20 should be out by the holidays.

7 WHY CAN'T NES GAMES BE USED ON THE SUPER NES?

When Nintendo's designers began planning the Super NES, their goal was to make the hottest game system ever. At first, they wanted to make the new machine compatible with NES Game Paks, but they soon realized that it would be much more expensive and some of the extra features of the Super NES might have to be sacrificed. They didn't want to compromise on quality. Besides, it's a simple matter to connect both NES and Super NES to one TV.

8 WHAT ACCESSORIES WILL BE AVAILABLE FOR USE WITH THE SUPER NES?

There are no plans for Super NES accessories in the near future, but further down the road, there may be many controllers and specialized products available. Always be sure to look for the Nintendo Seal of Quality to insure that an accessory is compatible with your system. Since the Super NES has an expansion port like the NES, anything is possible in the future, including network attachments, keyboards and CD ROM drives.

9 WILL THE SAME GAMES BE AVAILABLE FOR BOTH THE NES AND SUPER NES?

Programmers try to make use of the features of the Super NES or NES when designing games for each system, and not all games require the extra-sophistication of the Super NES. As a result, identical games probably won't be made for both systems. Instead, look for special versions of popular games such as Paperboy, The Simpsons and Castlevania.

10 HOW CAN I FIND OUT MORE ABOUT THE SUPER NES?

Keep looking in the pages of Nintendo Power. Just as Nintendo Power is the source for NES and Game Boy tips, maps and strategies, it will also be your best source for information on the Super NES and Super NES games. That doesn't mean we're going to devote the entire magazine to Super NES games. Nintendo Power will continue to provide the hottest coverage of games for the NES, Game Boy and the Super NES. Whatever your choice of systems, Nintendo Power will have it covered. You can also contact Nintendo Consumer Service for specific questions about Nintendo products.

Call: 1-800-255-3700
This month we take a look at three of the hottest new titles for the Super Nintendo Entertainment System. All of these games are part of a new generation in video gaming for your home. The wild 16-bit graphics and intense stereo sound are more than superb. Super Power has arrived!

Super Ghouls 'N Ghosts

Incredible Graphics! Awesome Sound! Ultra-Challenging!

Return To A Magical World!

Remember Ghosts 'N Goblins for the NES? It was easily one of the most challenging games around. Capcom has now released an updated version, Super Ghouls 'N Ghosts, for the Super NES. You will find yourself confronted with eight brand new levels of intense game play. This is a journey into a magical world of horrific monsters and elaborate terrain.
Lots Of Armor And Weapons

A knight just isn't a knight without a shining suit of armor. You'll collect armor and weapons that will be dropped by your enemies as you defeat them.

Master The Double Jump

The double jump is one of the keys to success in Super Ghouls 'N Ghosts. Jump once, and while you are in the air, jump again.

As you begin the game, the first four levels are displayed on a map. This is only the beginning. Scroll to the right to see the next four. They're even more difficult!
Stage 1
The Graveyard

In the graveyard, you will be treated to many eerie sights. Zombies emerge from their caskets. Fiery snake heads track your every move. Evil towers try to drop skulls on your head. It's business as usual in the graveyard.

Stage 2
Ghost Ship

On the Ghost Ship, you'll find treasure, devious traps, and of course, lots and lots of ghosts. Check out the incredible sound! Remember that the water is cold and that you can't swim wearing a suit of armor.

1st Boss
Zowie! It has a long neck!

Swinging Blades
The Swinging Blades can be tricky to jump over. Use a double jump to make it easier.

2nd Boss
This guy wants to get close to you—real close!
Stage 3
Snow Mountain

In this stage, you'll need to climb up a snow covered path. Nasty spikes stick up all over the place, so stay alert. There are a lot of enemies here also, particularly as you get near the end of the stage. Look for some helpful hidden Power-Ups!

Air Attack
Enemies begin to come at you from all directions. Jump, dodge and shoot to defend yourself. It helps to have your armor Powered Up.

3rd Boss
Your best position for the attack is right in the middle of the screen.

Stage 4
Big Cave

The walls are alive and they're out to get you! This stage really shows off the graphic capabilities of the Super NES. The entire screen rotates in true Super NES fashion. You may very well forget which way is up!

Moving Platforms
When you're on the moving platforms, enemies will try to bump you off.

4th Boss
It's absolutely HUGE! Your best bet is to aim for its head.
Multiple play modes and flashy graphics make Hal's new golf game challenging and fun. Practice first, then switch to Stroke, Match, Tournament or Vs. Hal mode. And if you miss TV instant replays, you'll appreciate the Memory mode, which captures your holes-in-one, albatrosses and eagles so you can play them back and admire them at your leisure.

**Show Some Grit On The Green**

Putting takes a light touch and finesse, just like in real golf. Check the slope to see what contours you'll have to compensate for, then line up with the cup. Close shots get super close-ups. You might even get to see the ball drop. But if your shot is too hard, chances are that it will skip right over the cup.

**Instant Replay!**

If you make an outstanding play and no one's there to witness it, don't worry—thanks to the game's Memory mode, you'll have the proof in instant replay! When you shoot a hole-in-one, an albatross or an eagle, you'll get a password. Use it in the Memory mode to relive your momentous feat over and over.
Once you've selected your clubs and fine-tuned your game in the practice mode, it's time to take to the links for 18 holes of top-flight competition.

**HOLE 2**

351 Yards
Par 4
Hole 2 doglegs gently to the right and narrows between two bunkers at the head. Shoot to land to the right of the second bunker.

**HOLE 3**

519 Yards
Par 5
A bad shot will get you soaked on Hole 3! Off the tee, aim for the short fairway section on the far side of the pond. Good luck!

**HOLE 4**

182 Yards
Par 3
Finally, a short hole—but that doesn't mean it's easy. You have to cross water and land on the green between two large bunkers.

**HOLE 5**

417 Yards
Par 4
The sixth fairway snakes around three bunkers, and bunkers also surround the green. Try to land to the right of the third bunker.

**HOLE 6**

374 Yards
Par 4
With water galore and bunkers everywhere, Hole 6 will keep you on the straight and narrow. Stay in the center of the fairway.

**HOLE 7**

518 Yards
Par 5
Go for distance with your tee shot and clear the water with your second. If you overovert the green, get out your Sand Wedge.

**HOLE 8**

355 Yards
Par 4
Last of the Out Holes, number 8 is short but not necessarily sweet. If you overshoot the green, you're likely to hit a bunker.
Most of the In Holes are straight, but they have more obstacles than the holes you've completed. Precisely placed shots will keep you on the fairway and out of trouble.

Hole 11, aka Bigfoot, is short but uneven. Be sure to check the slope before you shoot for the green—the ball can really roll.

Hole 12 is long and lean. If you tee up the ball, shoot over the first bunker to land to the right of the second fairway.

Hole 13 is short but the green is surrounded by water. Hit the green with your tee shot, crossing over the water and bunker.

Number 16 is the longest hole on the course. Try to put your first shot to the left of the second bunker. It's easier said than done!
A NEW DIMENSION FOR A CLASSIC GAME

Many of you "R" familiar with the great play and theme of Irem's R-Type, having spent hours on the arcade, Game Boy and NEC versions. Many of the stages and enemies are the same in Super R-Type, but the deep space drama comes to life like you've never seen it before thanks to the awesome resolution and graphics capabilities of the Super NES. The designers at IREM made excellent use of the huge color palette for intricate details on the background screens as well as enemies. As for challenge, it's legendary!

SUPER FEATURES OF THE R-9

What makes the R-9 such a special ship? For starters, it's fast and maneuverable, and with the Power Pod it is almost invulnerable. Weapon upgrades are super, too.

POWER POD & PLASMA

Attach a Power Pod to either the front or back of the R-9. The Pod is an almost invincible shield and a weapons platform for cannon, missiles and lasers. Plasma protects your top and bottom sides from alien attackers.

POD POWER

Detach the Pod and operate it separately, or shift it to the rear. Plasma acts as an extra shield. Third level Pod weaponry gives you awesome fire power. You'll need it all!

SUPER ENERGY SHOTS

Power-Up the R-9's cannon for a super, alien-melting blast of raw energy by holding the B Button until the meter at the bottom of the screen fills with both blue and orange.

ENERGY SHOT

When the shot meter fills with blue, the Energy Shot fires straight ahead.

SUPER SHOT

If orange fills the shot meter, the Super Shot spreads wide like a wave.
Weapon upgrades for the Power Pod give you the edge against Bydo Empire foes who don’t know when to quit. From missiles to lasers, the enhanced weapons all have special uses. For instance, the Reflect laser is lousy in a fight against waves of attacking ships, but it’s great against some of the bosses.

The graphics of Super R-Type are so stunning that you’ll want to play just to see what comes next. It’s a world composed of mechanical and biological life forms. Very eerie. How is it done? With intricate details on even the smallest objects, multiple scrolling backgrounds that give a super 3-D look, and huge, complex enemies that get your adrenaline pumping. In space, nobody dares to blink.
Before you launch your R-9 into the fierce fray of space combat, you'll have a choice of difficulty levels from which you can choose. At the Novice level, the action is slower and the enemies fewer. The big plus of playing at Novice level is that you get to keep special weapons when you continue a stage. Easy, Normal, Hard and Pro levels are progressively more difficult with more enemies packing greater fire power.

**STAGE 1**
**GALACTIC SPACE**

Alien ships appear from behind planets and out of the vast night of galactic space. You'll have to make use of the R-9's quick controls immediately. Watch out for asteroids and the explosive mines!

**STAGE 2**
**ALIEN RUINS**

Relics of an ancient, alien civilization don't need digging up. Running on "auto", the defenses are still formidable. Crushing arms, narrow passages and swarms of enemies will test your reflexes.

**STAGE 3**
**THE CAVE**

Rocket powered goldfish, swift currents and dead ends are just the start of your troubles in this level. New weapons are available, if you survive long enough to get them.

**STAGE 4**
**BATTLESHIP MK I**

Veterans of the earlier versions of R-Type for the arcade and Game Boy will recognize the Battleship enemy from level 3. Maneuver in the tight spaces around the heavily defended ship as you fight your way to the Prisoner!

**“R” YOU READY FOR MORE?**

This is just the beginning of the adventure. Seven stages await dedicated pilots, all of them as brilliantly detailed as those shown here. If a challenge is what you want, you won't be disappointed. The Bydo Empire must be stopped at all costs.

On or about November 15, 1991, winners will be randomly drawn from among all eligible entries and notified by mail. By accepting their prizes, winners consent to the use of their names, photographs, or likenesses for the purpose of advertising or promotions on behalf of “Nintendo Power” magazine or Nintendo of America Inc. without further compensation. Chances of winning are determined by the total number of entries received. The ratio of prizes to entry cards distributed is 1:1,350,000. Prizes are limited to one per household. Winners may not elect to substitute prizes. All prizes will be awarded. To receive a list of winners, which will be available after November 30, 1991, send your request to the address provided above.

GRAND PRIZE TRIP: Nintendo will arrange travel and accommodations for the Grand Prize winner and up to four immediate family members to a mountain biking destination in the U.S. to be determined by Nintendo. The estimated value of the travel and accommodations is $4,000. Up to five mountain bikes and safety helmets will be provided by Nintendo, one each to the winner and his or her immediate family members only. The estimated value of the mountain bikes will not exceed $400 each. The winner and immediate family members under age 18 participating in the trip must be accompanied by a parent or legal guardian. The winner and immediate family members participating in the trip must provide written release to Nintendo of America Inc. The trip will take place before October 31, 1992; its actual date is subject to final determination by Nintendo of America Inc. and to accommodation and airfare availability.
Nintendo Power celebrates the World Series by taking a look at two new baseball games—Super Bases Loaded In Now Playing and Roger Clemens Baseball in a separate review. Then get set for hot action with Marvel's super heroes, Captain America And The Avengers and Wolverine. Pirates! and Pilotwings wrap up this month's quick peeks with adventures by sea and by air.

CAPTAIN AMERICA AND THE AVENGERS

Marvel's marvelous super heroes come to life in Data East's Captain America And The Avengers. As you may guess, action is the name of the game when Captain America and Hawkeye set out to rescue their buddies. The diabolical Mandarin has captured Vision and Iron Man and is set on ruling America! The control is good and so are the graphics, both in the cinema-type scenes and during fights. There are nifty, super hero moves, too—spinning jumps and swinging from bars. Switching back and forth between Cap and Hawkeye keeps things hopping.

Save the U.S.A.

The avenging heroes will travel across the country to carry out their missions. You select which hero to move next, beginning in the Old South and moving north then west.

Dramatic, animated cinema scenes introduce the game and add to the story as Captain America and Hawkeye wreak justice across the country. The artists at Marvel and Data East's programmers did a great job recreating the comic book heroes on video. Pay attention, because clues and fighting techniques are often given by Wasp between mission assignments.

It Takes All Kinds

All kinds of action, that is. Running, jumping, spinning, swinging from pipes—the super heroes do it all, and then some. Each has his own special weapon. Captain America hurls his shield like a deadly frisbee while Hawkeye takes aim at bad guys with his bow and arrow.
Ahoy, me'hardies! Ultra Games and the programmers at RARE Ltd. have brought the PC classic from Microprose to the NES for all you would-be swashbucklers and privateers. Now you can sail the Spanish Main as the captain of a French, English, Spanish or Dutch ship, seeking plunder by sea and land. Attack enemy vessels with the cannon, then board them and fight hand-to-hand, or sneak into a Spanish town at night and make a deal with the governor. If you fight well and keep your crew happy, you could soon command an entire fleet! The skills you need to master include Navigation, Gunnery, Fencing, Medicine, Wit, and Charm. There is also a good deal of talking to people and gathering news.

Booty is the lifeblood of Pirates. You need gold to keep your men loyal, for provisioning your ships and to make deals. Sometimes the booty is gold, but it can also be trade products, extra ships, food, tobacco, or even land. From Florida to South America, dozens of ports are fat with plunder, but many are also heavily defendend. It's up to you to choose targets wisely.

Swashbuckling Strategy
At the beginning of the game you'll select a special skill. Choose Fencing as it gives you the greatest versatility. During battle sequences, whether on land or at sea, close quickly and fight the enemy leader in a duel instead of using your cannons. If you are an expert swordsman, you'll stand a good chance of taking the enemy without damaging your ship or losing crewmen.

You can even up your chance of swiping plunder by taking on the leader of the enemy in a duel. You'll have your choice of using a Rapier, Longsword, or Cutlass.
PILOTWINGS

Nintendo's Super NES flight-action game combines flying challenges from parachutes to airplanes, but the most impressive part of the game is how the graphics rotate and scale to give a very real feeling of flight. The game is a series of tests. At the easiest stage, simply land a plane or parachute onto a target. Later, as your piloting skills increase, you must fly complex courses or perform other aerial acrobatics to score enough points to move onto the following stages. The password feature makes it easy for pilots to perfect their skills and move on to new challenges. Maneuvering control is also excellent, and an explanation of the controls of each flying device can be brought up on-screen before the flight.

SUPER BASES LOADED

Playing the perfect baseball game is the idea behind Jaleco's Super Bases Loaded. You'll have to excel at all aspects of the game and avoid making costly errors or your ranking will suffer. It won't be easy, though. First you'll have to master the controls and come to grips with the perspective, which is always from the outfield looking in, even when you are at bat. Once you have the basics, you can create your own customized players and teams to take out to the ballpark. How about creating a designated hitter who bats .500, or create an entire team of super sluggers? There are other options, too. You can play the computer or a friend simply watch the computer play itself. There's also a Designated Hitter option for added authenticity.

A Major League Challenge

Defense Is The Key

Play the ball according to whether it's in the infield or on its way to Siberia. Ignore the inset diamond on short pops and line drives. Since the dot that represents the ball moves more slowly than the actual ball on the field, look at the field and move the player closest to the ball. If the ball is knocked deep into the outfield, use the inset diamond to watch the ball until the outfielder runs into view.
This issue features the first Super NES chart. This new game adaptation allows you to oversee an entire world and compete with the two-player controlled force. The spaceship shoot-'em-up sequel is a fantastic first, street fighting game. And this arcade hit final fight a new title, Super Mario World, however, does not bring much action and adventure. This new title, Super Mario World, however, does not bring much action and adventure.

**HOW DO YOUR SCORES RATE?**

Join the high-score hall of fame by sending in photos of your scores. If your score is one of the highest, you might see your name listed in a future issue. When you take your picture, turn out the lights and hold the camera steady. For best results, use a 35mm camera without a flash.
The Battletoads break into the top ten this month, shaking up the order and putting the heat on long-time leaders. The 'toads prove that Zitz, Pimple and Rash aren't just dreaded skin problems.

### WHAT'S POPULAR WITH PLAYERS?

Players polled pick favorites that reflect their diverse tastes, ranging from action to role-playing games.

### BATTLETOADS HIT BIG WITH THE PROS

As a group the pros usually prefer RPGs, but action-packed Battletoads has captured an avid audience.

### TRIED AND TRUE FAVORITES TOP THE DEALERS' LIST

Familiar names are still tops with the dealers, but they've also discovered some of the latest—and hottest—titles.
Playing Nintendo video games is like investigating a hot news story—you’ve got to be a daredevil and a risk taker,” says Joe Regalbuto. Joe should know. He portrays Frank Fontana, who is Murphy Brown’s closest friend and the investigative reporter who will “do anything to get the story” on the hit television series “Murphy Brown.”

“Murphy Brown,” now in its third season on CBS, also stars Candice Bergen as Murphy. The show recounts the behind-the-scenes antics at the informational program called “FYI.” “I love my job,” says Regalbuto. “We have a great time on the set and the audience picks up on it, which is part of what makes the show so popular.” The cast has a lot of fun together off the set, too. Last winter, a group including Regalbuto and co-stars Candice Bergen and Faith Ford, who plays Corky Sherwood, went skiing in Park City, Utah, taking with them a trusty Game Boy to keep themselves amused on the ski lifts. “Playing Game Boy really keeps your mind off the cold,” recalls Regalbuto.

While on the slopes, Regalbuto was reminded that being a celebrity can have its drawbacks. “Generally speaking, the positive response I get from fans is very rewarding, but sometimes I’d rather go unnoticed. There I was, going berserk down the mountain, falling head over heels, and someone shouts ‘Hey, Frank!’ from the lift above. It can be kind of embarrassing.”

Regalbuto does most of his Nintendo video game playing with his kids, 13-year-old Nicolas, 11-year-old Michael, and 6-year-old Gina. “We like to play Baseball or Bases Loaded. My kids are so good, I have to twist their arms to get them to play against me!” jokes Regalbuto. “Sometimes they hold back and almost let me win, but they don’t quite go that far. I really get a thrill out of playing the sports I loved as a boy on Nintendo video games,” he added.

Regalbuto caught the acting bug early and after high school studied his craft at the American Academy of Dramatic Arts in New York City for two years.

Regalbuto’s many television credits include guest appearances on “The Golden Girls,” “Night Court,” “Amazing Stories” and “St. Elsewhere.”

His film credits include “Six Weeks,” “The Sicilian,” “Missing” and “Star Chamber.” Regalbuto also has many theatre credits.

When he’s not performing, Regalbuto loves to play Nintendo video games, travel, cook Italian meals and play the saxophone—but not all at once, of course. And when he’s facing the challenge of trying to beat his kids at video games he takes a tip from his “Murphy Brown” character and remembers that “sometimes you have to do anything to save the princess!”
As the holidays approach, lots of companies are getting ready to release hot new games for all three Nintendo systems. We can't cover all the titles in Pak Watch, but we'd like to give you an idea of what you might see in the stores, or maybe in your stocking.

**ULTIMA: WARRIORS OF DESTINY**

FCI is marching fearlessly ahead with its continuing series of Ultima RPGs, following up on Quest of the Avatar with Warriors of Destiny. Someone (Lord British for one) just can't seem to get enough of this brand of quest epic. We expect he has made some sort of "Ultima-tum." What's in store for the die-hard, Ultima fan this time around is none other than a rescue mission for Lord British himself, who has mysteriously disappeared. At the same time, the evil Blackthorne has consolidated his power along with the Shadowlords.

As we might have expected from an Ultima game, the plot is detailed and dark, full of magic and menace. The graphics didn't surprise us, either. Basically the graphics relay information without a lot of frills. You don't have to run and jump like a super hero in an Ultima game. What you do have to do is use your head. We also discovered that you have to use other people's heads, like those of Shamino, Dupre and other returning Ultima characters who aid you, or hinder you as they see fit. The huge number of characters conveys a certain sense of being in a real world.

If your idea of fun is solving puzzles, creating strategies and saving the world from a fate worse than bad breath, Warriors of Destiny will keep you on the edge of your seat for 100 hours or more.
G.I. JOE 2

G.I. Joe 2 is another sequel that should keep fans of the original game chewing their nails in anticipation. Taxan introduced America's favorite fighting man and action figure to the NES in early '91 with a rip-roaring mission that kept us glued to our bazookas. Now, at the other end of the year, Capcom is coming out with number two, and there are some changes for Joe and company.

First off, the fighting control has been improved. It is now easier to switch from one weapon to another, or to use your fists. And, there are more weapons right off the bat—a big plus! You can even try the weapons out before you begin play. Second, the good guys in the version we saw seemed to look like the bad guys—and neither of them looked as good as the characters in the first game.

As for the mission, Joe and his highly trained commando squad are after the Cobra organization. It seems that Cobra has raised a lost continent from the sea and vital U.S. interests must be protected. With just a little work, G.I. Joe 2 could be raised to NES hit status.

CRAZY LAND

Dewey and Dixie are best friends, but when Dixie is snatched by a huge, mutant hand, Dewey becomes a super kid who bops evil clowns with a soccer ball. Yeah, we thought it sounded silly, too, but this action game from NTVIC and Vap (which also sounds kind of silly) can be a kick. Younger players, or older players, or players like us who have had it up to our ears with cuddly bunnies and happy ducks getting away with murder in so many cartoons, comics and video games will especially love it. Better yet are the roller coaster sequences with their loops and jumps. The best move in the game is a bicycle kick that makes Dewey flip head over heels. You can use this in the roller coaster cars, too.

The graphics are big and colorful—reminiscent of coloring books and building blocks. The game control is pretty good, and not too challenging except on a few jumps that must be made with precision. This game is definitely not for everyone, but if you've always suspected that clowns are inherently evil, as we have, you might like this one.
Now that the Super NES is in the stores, game makers are rushing to put their hottest titles on the shelves. The range of games—from RPGs to sports—is remarkable, and it keeps getting wider, which goes to show that the Super NES is super versatile. After a look at the games below, we think you'll agree.

**U.N. SQUADRON**

Known as Area 88 when it came out in the arcades, this hot action game from Capcom puts you in control of a jet fighter protecting your home base from invading ground and air forces. Well, that sounds pretty basic, but the game itself keeps you glued to the tube. Great control is part of the magic, but even more important to us was the challenge. There always seems to be just enough enemy firepower to keep you on the edge of disaster. That's not all. You can upgrade your fighter and add super weapons to your on-board arsenal. You action fans are going to love it.

**POPULOUS**

On the other end of the gaming spectrum is Acclaim's version of Populous, the hit PC game that defies all labels. At first glance, Populous looks like a board game with living pieces. Experiment a bit and you'll discover that you have amazing powers, such as the ability to raise and lower land. The point of the game is to manipulate your people and the land they live on so that they advance to higher levels of civilization. When your tribe comes in contact with an enemy tribe, battle ensues. So strategy is what the game is all about, but we also enjoyed just watching and listening to the miniature world which seems to have a life of its own.
**GOSSIP GALORE**

**PAPERBOY 2**
The Software Toolworks is bringing back America's favorite suburban action game, and they're doing it in a big way with three versions of Paperboy 2. One version will be for Game Boy, one for the NES and one for the Super NES, which is pictured below. If past popularity is any measure, this game (or these games) should be a hit. Although we haven't got our hands on Paperboy 2, the folks at TST are promising a whole new array of front yard obstacles, not to mention bad weather and angry dogs!

**KINGS QUEST V**
Konami is bringing King's Quest V, the PC game, to the NES. The highlight is the hero's pet owl, Cedric, who is often smarter than his master. The story is basic RPG stuff, and the look is definitely PC, but the text was well written and added to the fun. If only the controls were as well done...

**CHESSMASTER**
The Software Toolworks offers the first chess game for the Super NES in Chessmaster, and it looks like it offers a lot. Some of the options will be familiar to players of the Game Boy and NES versions, but the design team at Mindscape also made use of the Super NES graphics by including special 3D boards with both traditional and human pieces. Unlimited play levels mean that no matter how good you are, the Chessmaster can clean up.

**FINAL FANTASY II**
Square has created an RPG that will probably set the standard for the future. This is a great game, and talk about vast! There are cities and castles and countries to explore. There are huge dungeons and, oh yeah, the moon! If that isn't enough to make your A Button finger itchy, how about changing parties, quick decisive battles, and stunning graphics and effects. Okay, enough already, let's just say we like it.

COMING NEXT MONTH:

TOM & JERRY
Tom & Jerry are at it again, this time on your NES. Tom has nabbed Jerry's little nephew, Tuffy, and trapped him in the attic. It's up to Jerry to climb up and over obstacles to free him.

WHERE IN TIME IS CARMEN SAN DIEGO?
Who knows? If you find the clues, though, and piece them together, you might just discover Carmen's hideout. Time is of the essence, so you can't dawdle. Check it out next month.

FINAL FANTASY II
Following up the NES hit, Final Fantasy II for the Super NES is bound to be a blockbuster. Light Warriors will have more land to explore and more clues to uncover.

BATTLETOADS
Those ever popular Toad characters were a smashing hit on the NES and now they are headed for the Game Boy screen. Next month's review provides a first-hand look at their newest adventure.

Dear Readers,
One of the great things about planning Player's Poll Contests is that we get to meet people like NASCAR racing legend Bill Elliott. Last April's grand prize included a trip to meet him and see him race. A couple of weeks before the trip, his many fans here at Nintendo headquarters got to meet him when he dropped by on his way to a nearby race. We found that he is an ace not only behind the wheel but also at the controls of the NES! Elliott was actively involved in the programming of Bill Elliott's NASCAR Challenge, possibly the most complex NES racing game to date, and while he was here, the Game Counselors turned the tables and asked him for tips! Look for the new Game Boy version of his game this winter!

Our goal is to try and preserve classic videogame magazines from years gone by before they are lost forever.

Thanks goes out to all the people who make this possible. From the original editors and writers, to everyone involved in acquiring and digitizing these magazines.

People interested in helping us out, in whatever way possible. Either by donating classic magazines, scanning, editing or distributing them, visit us at http://www.retromags.com

We are only interested in preserving classic magazines that are at least 5 years out of print.

We have no desire or intention to profit from these in any way. So please, if you come across people trying to sell these releases, don't support them!

Thank You and ENJOY!
